I strongly support the Mt Owen Continued Operations Project, this project not only helps support my family but my community benefit also with various fundraising projects we have sponsored or participated in.

Without the continuation of such projects not only does our local and national economy suffer, but the opportunities for the local youth diminishes to next to nothing.

Do we need more job losses, unemployed, houses and business for sale in this local area. The ripple effect from these losses is currently felt from Scone to Newcastle an awfully big area.

I ask you this question without the Mining Industry where do these people go? Who buys there homes in a town where there is nothing? What do we do?

I know we operate safely and the environment is a huge concern and something we as a company and our employees strive for compliance everyday.
