Date: Friday, 9 November 2018 2:53:45 PM

Dear Genevieve,

I am writing to add my comments about the above expansion.

1: as such I am not opposed to the expansion, however:

2: I am concerned that increased truck movements will cause delays to residents on Brandy Hill Drive, and side roads, getting onto Brandy Hill Drive.

3: I am concerned that a large number of school children wait at bus stops and that they are going to be exposed to more truck movements

4: I am concerned that school children have to cross Brandy Hill Drive to and from bus stops before and after school, more trucks will mean more danger

5: my main concern is that the chance of a vehicle being hit by a truck while turning into driveways and side roads will increase significantly. I observed a school bus skid on approach to the bus stop outside Warrigal Close to avoid a car turning, narrowly missing us standing there. Imagine a fully loaded gravel truck and dog trying to stop suddenly going down the hill on a wet road, or even a dry road.

6: I am also concerned that the damage to the road surface will deteriorate considerably with increased truck movements. At present repairs are on-going, so no doubt this will result in further delays.

Regards
