---

Dear Genevieve

I would like to register my objection to the proposed increase in truck movements along Brandy Hill Drive and the surrounding small roads.

This is a residential area with many schoolchildren. I am concerned that the lives of residents are being put at risk with the increased truck traffic. It is an area used frequently by road cyclists for training and leisure. My son aged 12 has recently joined his father on their cycling route however even at slower speeds his small frame is easily sucked towards thundering trucks going by. Increased truck traffic will make it too dangerous for him to continue without investment in more cycle ways.

There is already significant air pollution from dust locally and I am also concerned that this will be worse if the application is approved.

I would urge you to refuse the application.

Kind regards
