---

Dear Ms. Seed: I write to object to the proposed extension of hours of operating licence for Hanson Construction Materials Pty. Ltd. on the grounds that there are already far too many B-double trucks thundering up and down the roads in the country emanating from Brandy Hill.

I live 500 metres from Paterson Rd. Bolwarra Heights but also travel around Paterson, Tocal, Bolwarra, Vacy and Gresford and Hanson trucks appear frequently on all the country roads in these areas. We hear them clearly as they pass our property - clanging and banging and the drivers' code of conduct is rarely adhered to as far as speed is concerned. Much of the area over which they travel is country but there are also many pockets of development and it is unacceptable for these trucks to be operating on a 24 hour basis. They should certainly not be able to travel during the night hours when people are trying to sleep.

I do hope that new planning will not approve this application of Hanson. Sincerely [REDACTED]
