Dear Mr Driver

State Significant Development – Director-General's Requirements Brandy Hill Quarry Expansion Project (SSD-5899)

I wish to advise you that in accordance with Schedule 2, Clause 3 (5) of the *Environmental Planning and Assessment Act 1979* (EP&A Act 1979), the Secretary has modified the requirements of the proposed Brandy Hill Quarry Expansion Project. I have attached a copy of the modified Director-General's requirements (DGRs) for the project.

The Commonwealth Minister for the Environment determined the proposed Brandy Hill Quarry Expansion Project a controlled action under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) on 3 June 2015 with respect to potentially significant impacts on a listed threatened species and communities. The Commonwealth Government has accredited the NSW environmental assessment processes under Part 4 of the EP&A Act 1979 in a bilateral agreement. The potential impacts on controlling provisions will be assessed under Part 4 of the EP&A Act and the Department will make a recommendation to the Commonwealth Minister for the Environment on whether the proposal should be approved or not approved under the EPBC Act.

Accordingly, the Commonwealth Department of Environment has provided its environmental assessment requirements and these have been attached (see Attachment 4). You must have regard to the Commonwealth requirements, particularly in respect of threatened species and communities listed under the EPBC Act.

If you have any enquiries about the modified requirements, please contact Thomas Watt on 9228 6375.

Yours sincerely

Howard Reed
