Subject: Austen Quarry Extension Project Modification Application
Date: Tuesday, 10 April 2018 11:45:33 AM

Dear Mr Murphy,

Thank you for your email received 9 March 2018 seeking WaterNSW's comments on the Austen Quarry Extension Project modification application (SSD 6084 - MOD 1).

WaterNSW has reviewed the Statement of Environmental Effects prepared by R.W. Corkery & Co Pty Ltd (dated March 2018). WaterNSW considers that the proposal will not increase the impact of the development on water quality, provided that the existing Water Management Plan for the site is satisfactorily updated and implemented.

Considering the above, WaterNSW requests the following:

- the Water Management Plan as required by Condition 20, and subsequent Site Water Balance, Surface Water and Groundwater Management Plans (Conditions 20 (d)(i), (ii) and (iii)), be amended to reflect the proposed site layout changes and that any proposed revisions be referred to WaterNSW for comment.
- the Statement of Commitments in Appendix 3 be retained.

It is requested that WaterNSW remain as a stakeholder for the proposal and any updates to relevant plans. WaterNSW would also appreciate being notified when the application has been determined.

If you wish to discuss further, please contact Nicole Wallwood on (02) 9865 2503.

Regards

Malcolm Hughes
