10. Accompanying documents (to be included as part of EIS)

Which of the following documents (as required under Clause 2 of Part 1 of Schedule 1 of the <i>Environmental Planning and Assessment Regulation</i> 2000) have been included in the EIS (select all that apply)?	
a site plan of the land.	
a sketch of the development.	
an A4 plan of the building that indicates its height and external configuration, as erected, in relation to its site.	
an environmental impact statement.	
preliminary engineering drawings of the subdivision work to be carried out (if any).	
documentary evidence that any arrangements required by an environmental planning instrument to have been made before development consent may be granted have been made.	
If the development involves a change of use of a building (other than a dwelling house or a building or structure that is ancillary to a dwelling house and other than a temporary structure):	
a list of the Category 1 fire safety provisions that currently apply to the existing building	
a list of the Category 1 fire safety provisions that are to apply to the building.	
If the development involves building work to alter, expand or rebuild an existing building	
a scaled plan of the existing building.	
If the land is within a wilderness area and is the subject of a wilderness protection agreement or conservation agreement within the meaning of the <i>Wilderness Act 1987</i> :	
a copy of the consent of the Minister for the Environment to the carrying out of the development.	
If the development is development to which clause 2A of Schedule 1 of the <i>Environmental Planning and Assessment Regulation 2000</i> applies:	
a BASIX certificate(s) issued no earlier than 3 months before the application is made.	
☐ such other documents as any BASIX certificate for the development requires to accompany the application.	
If the development is BASIX optional development and the development application is accompanied by a BASIX certificate(s):	
such other documents as any BASIX certificate for the development requires to accompany the application.	
If the development involves the erection of a temporary structure:	
documentation that specifies the live and dead loads the temporary structure is designed to meet.	
a list of any proposed fire safety measures to be provided in connection with the use of the temporary structure.	
in the case of a temporary structure proposed to be used as an entertainment venue, a statement as to how the performance requirements of Part B1 and NSW Part H102 of Volume One of the <i>Building Code of Australia</i> are to be complied with (if an alternative solution, to meet the performance requirements, is to be used).	
documentation describing any accredited building product of system sought to be relied on for the purposes of section 79C(4) of the <i>Environmental Planning and Assessment Act 1979</i> .	
copies of any compliance certificates to be relied on.	
If the development involves the use of a building as an entertainment venue or a function centre, pub, registered club or restaurant:	
a statement that specifies the maximum number of persons proposed to occupy, at any one time, that part of the building to which the use applies.	9
If the development is residential flat development to which State Environmental Planning Policy No. 65 – Design Quality of Residential Flat Development applies:	
an explanation of the design in terms of the design quality principles set out in Part 2 of State Environmental Planning Policy No. 65 – Design Quality of Residential Flat Development.	
☐ drawings of the proposed development in the context of surrounding development, including the streetscape.	
development compliance with building heights, building height planes, setbacks and building envelope controls (if applicable) marked on plans, sections and elevations.	
drawings of the proposed landscape area, including species selected and materials to be used, presented in the context of the proposed building or buildings and the surrounding development and is context.	
details of the existing and likely future contexts, if the built form of the surrounding area is changing.	
☐ photomontages of the proposed development in the context of surrounding development.	
a sample board of the proposed materials and colours of the façade.	
detailed sections of proposed facades.	
a model that includes the context, if appropriate.
