**Attention:** Director - Resource Assessments

This is a submission on the **Sutton Forest Quarry Project: EIS SSD 6334**

Dear Director:

I strongly **OPPOSE** this development for many reasons, which include the following.

The traffic it's hard enough now to get onto the highway. it is even worse on the holiday's

The noise and Pollution

The loss of 46 hectares of natural bush land which will affect the animals and rare plants a the Giant dragon fly.

We are on bore water not town. if the bore dries up we cannot afford to buy water in.

We have had enough death's on this stretch of the Hume hwy We do not need any more.

I declare that I have made no reportable political donations in the previous two years.

Yours sincerely

**Attention:** Director - Resource Assessments

This is a submission on the **Sutton Forest Quarry Project: EIS SSD 6334**

Dear Director:

I strongly **OPPOSE** this development for many reasons, which include the following.

The following reasons are my concerns and worries about how the new Sutton Forest mine project will damage and destroy many rare and beautiful things around our amazing land.

• There will be problems with our bore water on our property especially during a drought. We rely greatly on our bore water and if it was to run dry we would not be able to afford water. Our water is so clean that we are able to drink it straight out of the ground but this mine will pollute our water so badly that it will effect our health by drinking it and it is the only water we have.

• The <sup>noise</sup> ~~noise~~ rate will increase on the highway with all the extra traffic it will also make it harder for everyone trying to merge onto the highway day and night which would effect our working life and could cause a distress.

• This mine will kill off many rare and native plants and creatures around our area. It will be polluting long Swamp Creek which happens to be about a 2k walk from our property and it is a beautiful walk with a majestic little open creek and beautiful wildlife, it looks like you are walking into a dream

I declare that I have made no reportable political donations in the previous two years.

Yours sincerely,

and this mine will destroy our dreamland.

I do not want this mine to go forward, I strongly oppose this sand mine.
