Mulgoa Valley Landcare Group, Mulgoa NSW, made the following submission on the project:

Narrabri Gas Project

Objects to this project

The Mulgoa Valley Landcare Group objects to the extraction of coals seam gas in the Piliga Forest. Simple solutions exist to ensure that the demand for Gas within our Country is met. It does not include destroying our natural assets which CAN NEVER BE REPLACED. We encourage the Federal Government to revise the amount of Natural gas exported to other countries. That way, we we can have our Gas AND our natural assets - and not feel beholden to the powerful energy companies that have only their profits as their motivation.
