**Subject:** Dolwendee Quarry

Hi Thomas,

As discussed on the phone, DPI Water are satisfied that the proposed conditions of approval are appropriate to manage the issues regarding water supply. In particular, the recommended condition below ensures that operations are modified if sufficient water is not available:

"The proponent must ensure that it has sufficient water for all stages of the project and, if necessary, adjust the scale of quarrying operations to match its water entitlements."

Please let me know if you have any further queries.

Kind regards,

Brendan Mee | Water Regulation Officer
