

5.7 TYPICAL HIGH RISE PLAN

The typical high rise plan occurs from levels 25 to 33 and comprises 9 residential units consisting of 2 one bedrooms, 4 two bedrooms, 2 three bedroom apartments and 1 four bedroom apartment.

Wintergardens are proposed on the curved ends of the tower floorplate in addition to the two 3 bedroom apartments. Apartments with wintergardens are also generally planned with external Juliet balconies to provide residents with a variety of external amenity alternatives.
