

All drawings to be read in conjunction with all architectural documents and all other consultants documents.

Do not scale drawings - refer to figured dimensions only. Any discrepancies shall immediately be referred to the architect for clarification.

All drawings may not be reproduced or distributed without prior permission from the

Construction general		
Glazing	Doors / windows: Aluminium framed single clear glazing to internal windows that open to balconies U-Value: 6.57 (equal to or lower than) SHGC: 0.74 (+ or - 10%)	
	Aluminium framed double clear glazing to curtain walls & glazing to balcony edge. U-Value: 4.11 (equal to or lower than) SHGC: 0.58 (+ or - 10%)	
	Given values are NFRC, total window values	
Roof / ceiling	Roof:	
insulation	Concrete roof - No insulation	
	No colour nominated	
	Ceiling:	
	Plasterboard ceiling - R2.0 bulk insulation to all units to top floor, balconies above & slo areas above	
	Note: It has been assumed at DA stage that the area of all ceiling penetrations is less to 0.5% of the total ceiling area. If down lights are proposed at a later stage, BCA loss of insulation calculations will be required.	
Wall / floor insulation	External Wall: Lightweight cladding to all external walls with R1.5 bulk insulation	
	No colour nominated	
	Internal walls within units:	
	Plasterboard on studs - no insulation	
	Inter-tenancy walls / corridor: 75mm hebel power panel plasterboard lined with R1.5 acoustic insulation	
	Floors: Concrete - R2.0 insulation to areas of open floor	
	Floor coverings: Tiles to wets areas, carpet to bedrooms and living areas as per plans	
Central hot water system	Central gas-fired boiler with R0.6 (~25mm) insulation to ringmain and supply risers.	
Reticulated alternative water	Alternative water supply available from Sydney Olympic Park Authority to be used for the irrigation of all landscaping & all tollets within the building (No rainwater tank required for BASIX compliance).
