Dear Brendon,

SSD 6603 – Site 68, Sydney Olympic Park – Modification 1 Amendment

As discussed, *Ecove Group Pty Ltd* (The Proponent) wishes to amend the 'Modification 1' application for SSD 6603, which seeks approval for:

"Internal and external improvements to the approved development, including a minor reduction in structural floor to floor heights, minor changes to landscape levels at ground floor, and minor adjustments to the 'rooftop crown', resulting in an additional 23 residential units and associated vehicle and bicycle parking".

We understand the application commenced public exhibition on Friday 20 August 2015.

The proposed amendment will include updated 'Elevations' and an updated 'Environmental Sustainable Development Report' only. There is no change to any of the other documentation submitted.

Specifically, the updated 'Elevations' will detail proposed changes to the façade materials. These proposed changes do not alter the façade colour or detailing, rather like for like materials are proposed as a result of design development and discussions with façade manufactures. An updated 'Environmental Sustainable Development Report' is also required to reflect these changes to the façade materials.

We would greatly appreciate if these minor amendments could be included the current application, so as to reduce the time and cost expended in assessing a separate application.

Please do not hesitate to contact me on 02 8233 7621 should you wish to discuss further.

Yours sincerely,

Samantha Wilson
Senior Consultant
