Dear Resident,

My name is Thomas Mitchell and I visited your house today to talk about the proposed Crookwell 3 Wind Farm. I am sorry I missed you, but I will be in the area until the afternoon of Wednesday 9 May 2012, so if you would like to call me on 0400 403 271, we can organise a meeting.

We are offering photomontages of the proposed wind farm to landowners in the district. The photomontage illustrates a representation of a wind turbine in relation to its proposed location and scale relative to the surrounding landscape.

The photomontage will be included amongst the planning documentation we will present to Department of Planning and Infrastructure in relation to the Crookwell 3 proposal. Once the photomontages have been accepted by the Department of Planning they will be public documents.

If you are not available to meet, but you would still like:

- a photomontage from your property,
- or you would like to discuss any aspect of the proposed wind farm.

Then you can call our free call number during business hours (1800 457 181) to talk to myself or my colleague Lucia Calvo. Our consultants will begin to prepare the photomontages in the week commencing 14 May 2012, so if you would like one prepared then please contact us before this date.

Thank you for your time,

Kind Regards,

Name : Thomas Mitchell

Mobile : 0400 403 271
