

## **BaptistCare NSW & ACT, Baulkham Hills NSW, made the following submission on the project:**

### **[SSD 6848 Redevelopment of Lismore Hospital Stage 3B](#)**

---

#### **Comments on this project**

BaptistCare NSW & ACT own and operate a residential village (Illowra Place) on the corner of Dibbs & Dalziell Streets Lismore. We request that landscaping of the open space between our development and the car parking station is given serious consideration. We would like to see the 7 storey car parking station softened with the planting of advanced trees and shrubs in the open space available. This will not only improve the view for our residents it will also provide some acoustic treatment, reducing traffic noise and helping to reduce any air borne pollution as a result of the increased traffic. We have more than 30 aged residents in our Illowra Place and their health and quiet enjoyment of their home is important.
