Dear Natasha

**Modification under Section 96(1) to correct an administration error in
Modification 1 to SSD 6848– Lismore Base Hospital**

On 24 May 2016, approval was granted to modify the SSD approval for Stage 3B of Lismore Hospital redevelopment to allow for a change in façade treatment to the carpark. However in the approval instrument, two (2) of the plans submitted for approval were omitted from the schedule.

Health Infrastructure (HI) seek to modify the instrument to include the two plans omitted:

- Drawing ACD 3003 Elevation 2 with Façade dated 15 April 2016 Rev H; and
- Drawing ACD 3004 Elevation 2 with Façade 2 dated 15 April 2016 Rev H

A description of the full modification and consideration of its planning merits was provided with the application for modification submitted in April 2016. Given that the project is currently under construction, the Departments urgent consideration of this modification under Section 96(1) would be appreciated.

Yours sincerely

Sam Sangster
Chief Executive
