Dear Mr McNicol

Modification Application - Erskine Park Resource Management Facility (SSD 7075 MOD 2)

The Department of Planning and Environment has referred the Erskine Park Resource Management Facility (SSD 7075 MOD 2) Section 96 (1A) modification application to the EPA for comment.

The modification proposed adding several carparking spaces and increasing the elevation of an access ramp. The proponent asserts that these modifications pose negligible potential environmental impacts.

EPA has reviewed the SLR *Erskine Park Waste and Resource Management Facility Modification to approved SSD 7075 Environmental Assessment Report 22/1/2018*. The EPA raises no concerns with the proposed modifications.

Should you have any question regarding this matter, please contact Mr Damien Rose on 9995 5586.

Yours sincerely
