Re- **SSD15\_7198 -formerly MP09\_0067**

Dear Jane

July 2013 in support for disadvantaged landholders, a community group petition was submitted , objecting to MP09\_0067, noting Fabricated Data and Misleading Environmental Assessment and Studies for the above Proposal.

May 2016, a transitioned SSD15\_7198 presented a slightly modified proposal, but after 3 years On Hold, Proponents -Response To Submissions, for above project (MP09\_0067), did not address issues raised in earlier submissions from the Community.

Therefore, we the undersigned are still very concerned about the fabrication of Studies and Documents which put forward a Misleading Bias for Planning Proposals and Legislation within this area, for which we seek remedy to damaging effects being caused.
