12 Darcy Street,  
PARRAMATTA NSW 2150

**Attention: Lee McCourt**

Dear Lee,

**St Marys Intermodal (SSD-7308) – Condition D13 & D19 Monthly Status Update**

I refer to the Department's letter dated 11 November 2021 that acknowledged the delays in deploying the ultimate noise monitoring system required by Condition D13 and registration of a covenant as required by Condition D19.

Below is the update the requirements for Conditions D13 and D19.

**1. D13 Noise Monitor**

Aecom deployed the interim noise monitor on 19 November 2021 and it was vandalised on 14 December 2021. The noise monitor has now been replaced and is being linked to the dedicated website, which will also be linked to the Pacific National website.

Wabtec are undertaking site inspections to confirm final design requirements and they have confirmed the ultimate noise monitoring system with RFID readers is to be installed in February 2022.

**2. D19 Registration of Covenant**

Pacific National has finalised the documentation for signatures and lodgement of the covenants is scheduled for January 2022.

If you have any questions or wish to discuss this further, please contact me on 0477 474 091.

Yours faithfully

**Urbanco Group Pty Ltd**
