Subject: 2018-363 Planning & Environment - Notification of Modification (SSD 7317 MOD 12)
Australian Technology Park

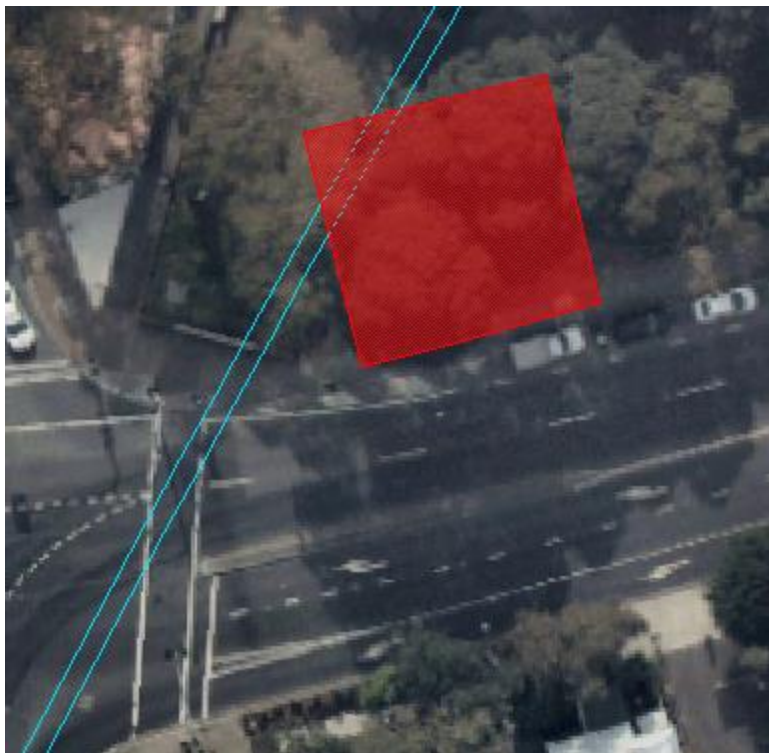

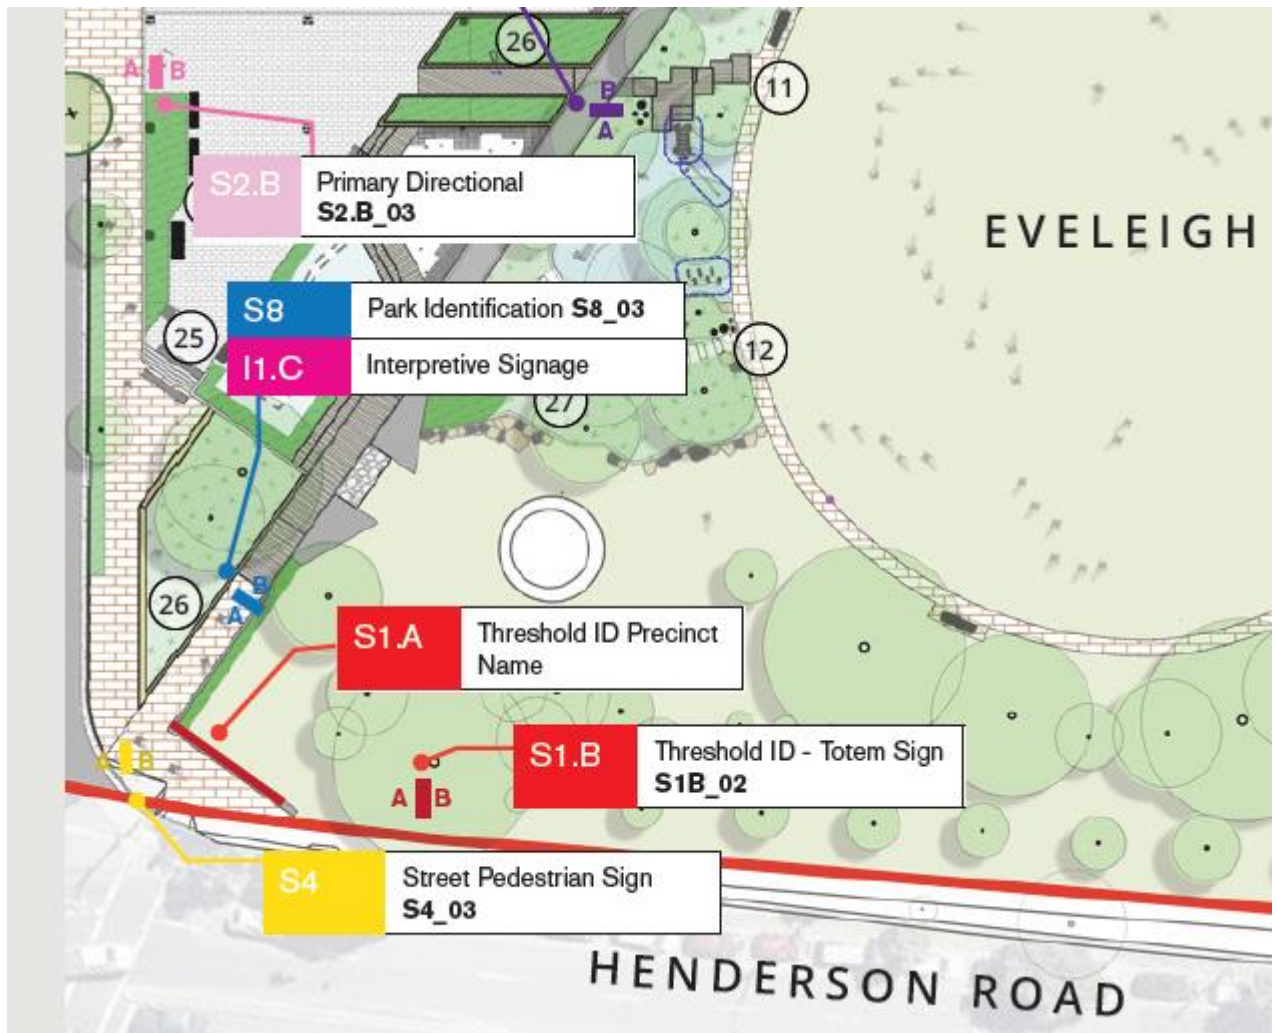

RE: 2018-363 - Planning & Environment - Notification of Modification (SSD 7317 MOD 12)
Australian Technology Park

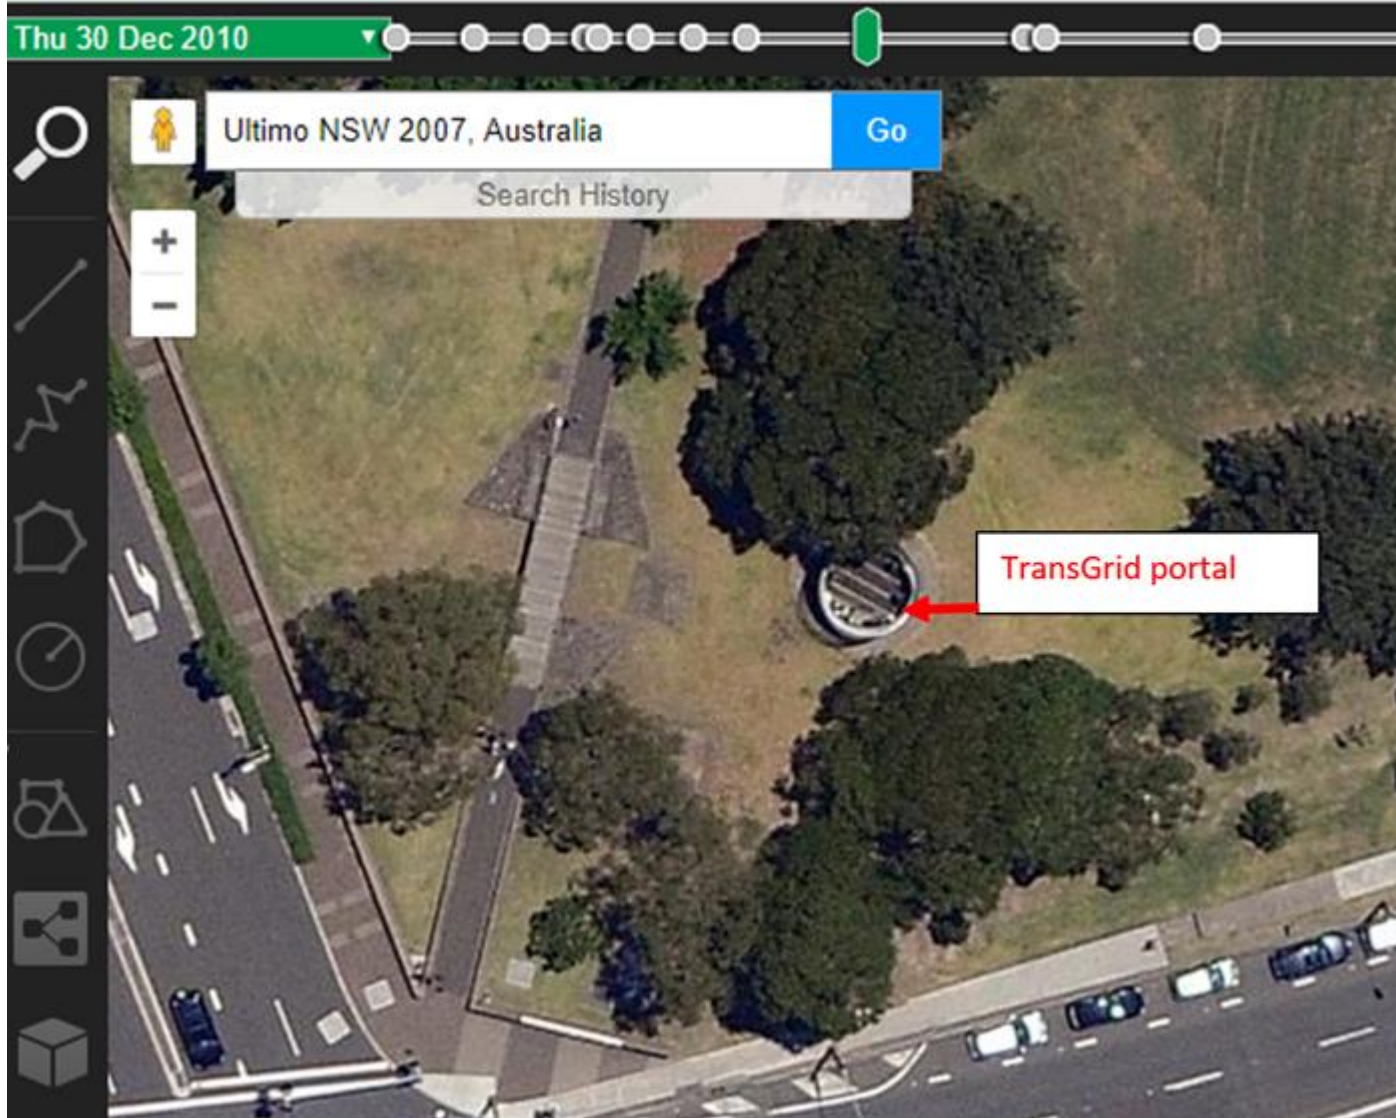

Thank you for referring the above mentioned Development Application to TransGrid for review.

Please be advised after reviewing the proposed Notification of Modification (SSD 7317 MOD 12)
Australian Technology Park

TransGrid makes the following submission:

1. TransGrid **must** be able to maintain access to their portal in Australia Technology Park. Over the years these has been increasing vegetation growth narrowing access.
2. The proposed totem signage S1.B (screenshots below) is located in the access easement acquired for maintenance of the portal. It looks like it may impede access/egress and use of that area between the tree and the footpath for maintenance vehicle parking.
3. **TransGrid requests that the maintenance access requirements and easement be considered as part of the masterplan.**
4. The current access point to the tunnel portal being off Henderson St (near Davy Rd)
5. Vehicular travel to the tunnel portal is currently still possible within the grounds.
