 - 2. between 3:30 pm and 5 pm, Saturdays
 - 3. between 8 am and 5 pm, Sundays
- (c) Schedule 2 Part C During Construction, Condition C1A is added by the insertion of the **bold and underlined** words / numbers as follows:

Extended Construction Hours

- C1A During the extended construction hours outlined in condition C1(iv), the following requirements must be met:
 - a) No deliveries of materials to the site or collection of materials from the site are to be made.
 - b) Construction works between the hours of 6 pm and 8 pm, Mondays to Fridays shall be limited to low-noise power and battery hand-held tools only and shall exclude the use of the following tools:
 - i) angle grinders;
 - ii) hammer drills;
 - iii) jackhammers;
 - iv) circular saws;
 - v) demo saws; and
 - vi) any other tool the generates a noise level equal to, or louder than, any of the above listed tools.
 - c) Construction works between the hours of 8 pm and 10 pm, Mondays to Fridays shall be limited to no-noise generating tools or equipment and be:
 - i) <u>undertaken internally, within the fully completed external façade of</u> the building with all external windows and doors fully installed and closed during works; and
 - ii) limited to internal fitout works only, such as the installation of ceilings and partition walls, finishes and services.
 - d) All workers during the extended hours are to be appraised of the following requirements and the builder is to ensure the following practices are adhered to:
 - i) access to the site during the extended hours is restricted to site personnel only;

- ii) workers are not to loiter or take breaks in any external areas of the site after 6pm; and
- iii) workers entering or exiting the site or within any external areas after 6pm, are to take care not to speak in raised voices, talk on mobile phones, use any radio including car radio, cause noise disturbance through the transportation of tools or any other activity.
- e) All building construction work, including all plant and equipment operating contemporaneously, shall be subject to the following maximum noise levels:
 - i) <u>During mass or services at St Patricks Cathedral: 55dB(A) LAeg (15 min)</u>, measured at the closest external facade of the Cathedral;
 - ii) During performances at the Riverside Theatre: 60dBA LAeg (15 min) as measured at the closest external facade of the Theatre; and
 - iii) If any non-compliance is detected with i) and ii) above, the Applicant shall take immediate action to ensure compliance.
- f) All construction works shall be carried out in accordance with the requirements of condition B23 and the recommendations of the Acoustic Assessment of Construction Noise and Vibration for Planning Modification report prepared by Acoustic Studio and dated 19 May 2017 (as amended by this condition).
- (d) Schedule 2 Part C During Construction, Condition C1B is added by the insertion of the **bold and underlined** words / numbers as follows:
 - C1B If investigation of complaint(s), through appropriate noise testing, establishes that offensive noise has occurred or works have been carried out during the extended construction hours outlined in condition C1(iv) in breach of conditions of approval, and the complaint is justified, then the Department may require by notice to the applicant, owner and developer, that the construction hours be restricted or revert to the approved hours in the original consent.

End of modification (SSD 7372 MOD 1)
