2. **Zoning and land use under relevant LEPs**

(a) RU1 Primary Production

*Gunnedah Local Environmental Plan, 2012*

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

   The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

   Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

   No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

   The Minister has not issued a direction under Section 75P(2)(c) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

   Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

   Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

   Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER

Per: [Signature]
Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah's longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affection of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
   (a) the clearing of native vegetation:
       (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
       (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
   (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
   (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
   (d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
   (e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production
*Gunnedah Local Environmental Plan, 2012*

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

   The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

   Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

   No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

   The Minister has not issued a direction under Section 75P(2)(c) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

   Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

   Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

   Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.
19. **Site verification certificates**

Council is not aware of any current verification certificate that applies to this land.

**Note.** Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

**Note.** Section 26 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the *National Building and Jobs Plan (State Infrastructure Delivery) Act 2009*. 
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:

(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or

(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or

(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or

(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or

(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8)(a)(ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production
   Gunnedah Local Environmental Plan, 2012

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. Bush fire prone land

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. Property vegetation plans

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. Orders under Trees (Disputes Between Neighbours) Act 2006

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(c)(i) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.
Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoinning zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) a lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgment of a development application pursuant to this plan for the purpose of a dwelling house.

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affection of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
       (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
       (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
    (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
    (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. **Zoning and land use under relevant LEPs**

(a) RU1 Primary Production

_Gunnedah Local Environmental Plan, 2012_

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. Bush fire prone land

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. Property vegetation plans

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. Orders under Trees (Disputes Between Neighbours) Act 2006

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(c1) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
   (a) the clearing of native vegetation:
       (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
       (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
   (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
   (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
   (d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
   (e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. **Zoning and land use under relevant LEPs**

   (a) RU1 Primary Production  
   *Gunnedah Local Environmental Plan, 2012*

   (b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

   (e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

   (f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

   (g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

   (h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
   (a) the clearing of native vegetation:
      (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
      (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
   (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
   (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
   (d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
   (e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production
   *Gunnedah Local Environmental Plan, 2012*

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

   The land is not identified as "bushfire prone land" on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

   Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

   No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

   The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

   Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

   Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

   Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

**Note.** Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

**Note.** Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER
Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in
       rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling
    house on a lot in a zone to which this clause applies, and on which no
    dwelling house has been erected, unless the lot is:
    (a) a lot created in accordance with clause 4.1, or
    (b) a lot that was created before the commencement of this Plan, in
        accordance with the Gunnedah Local Environmental Plan 1998, or
    (c) lot that is at least the minimum lot size shown on the Lot Size
        Map in relation to that land, or
    (d) a lot identified as “Dwelling opportunity” on the Dwelling
        Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for
    the erection of a dwelling if an application for development consent
    referred to in subclause (3)(d) is made in relation to that land before the
    second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a
    dwelling house on land described in that subclause that has been affected
    only by the following:
    (a) a minor realignment of its boundaries that did not create an
        additional allotment, or
    (b) a consolidation of allotments, but not so as to reduce the area of the
        land on which the dwelling house will be erected, or
    (c) a subdivision creating or widening a public road or public reserve
        or for another public purpose.

(6) Despite any other provision of this clause, development consent may be
    granted for the erection of a dwelling house on land in a zone to which
    this clause applies if:
    (a) there is a lawfully erected dwelling house on the land and the
        dwelling house to be erected is intended only to replace the
        existing dwelling house and is not occupied until the lawfully
        erected dwelling house is demolished or its occupation has
        permanently ceased; or
    (b) the dwelling house will replace a lawfully erected dwelling house
        that was either:
        (i) removed from the site; or
        (ii) partially or completely destroyed, less than two years prior to
            the lodgement of a development application pursuant to this
            plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:

(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or

(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or

(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or

(d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or

(e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. **Zoning and land use under relevant LEPs**

(a) RU1 Primary Production

*Gunnedah Local Environmental Plan, 2012*

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

_Gunnedah Shire Council Section 94A Contributions Plan, 2013_

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

**Note.** Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

**Note.** Section 26 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the *National Building and Jobs Plan (State Infrastructure Delivery) Act 2009*. 
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER
Zone RU1  Primary Production

1  Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2  Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3  Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4  Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
(a) to minimise the flood risk to life and property associated with the use of land,
(b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
(c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
(a) land identified as “Flood planning area” on the Flood Planning Map, and
(b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
(a) is compatible with the flood hazard of the land, and
(b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
(c) incorporates appropriate measures to manage risk to life from flood, and
(d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
(e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
(d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
(e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. **Zoning and land use under relevant LEPs**

   (a) RU1 Primary Production  
   *Gunnedah Local Environmental Plan, 2012*

   (b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

   (e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

   (f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

   (g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

   (h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

   The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

   Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
   * General Housing Code
   * Rural Housing Code
   * Housing Alteration Code
   * General Development Code
   * General Commercial and Industrial Code
   * Subdivision Code
   * Demolition Code

4. **Coastal protection**

   The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

   Not applicable to the subject land.
4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

The land is not identified as "bushfire prone land" on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. **Site verification certificates**

Council is not aware of any current verification certificate that applies to this land.

**Note.** Council has not been advised of any matters prescribed by section 59 (2) of the *Contaminated Land Management Act 1997*.

**Note.** Section 26 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the *National Building and Jobs Plan (State Infrastructure Delivery) Act 2009*. 
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER
Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) a lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affection of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the Floodplain Development Manual (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
(d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
(e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production

Gunnedah Local Environmental Plan, 2012

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.
(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.

4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the
likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.

11. **Bush fire prone land**

The land is not identified as "bushfire prone land" on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).
14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(c)l of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.

19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

20. Loose-fill asbestos insulation

Council is not aware of any residential premises on the land (within the meaning of Division 1A of Part 8 of the Home Building Act 1986) that are listed on the register that is maintained under Division 1A of Part 8 of the Home Building Act 1986.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.

Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

State Environmental Planning Policy (Rural Lands) 2008
State Environmental Planning Policy (Temporary Structures and Places of Public Entertainment) 2007

(1)(b) Local Environmental Plan and deemed Environmental Planning Instrument:

Gunnedah Local Environmental Plan, 2012

(2) Draft Local Environmental Plan that has been placed on exhibition:

No Draft Gunnedah Local Environmental Plan has been placed on exhibition

(3) Development Control Plan/s that has been prepared by the Council:

Gunnedah Development Control Plan 2012

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production

Gunnedah Local Environmental Plan, 2012

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.
(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.

4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the
likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

Council is unable to confirm whether or not:
(1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.
(2) Development on that land or part of the land for any other purpose is subject to flood related development controls.
Words and expressions in this clause have the same meanings as in the instrument set out in the Schedule to the Standard Instrument (Local Environmental Plans) Order 2006.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.

11. **Bush fire prone land**

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.
13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.

19. **Site verification certificates**

Council is not aware of any current verification certificate that applies to this land.

20. **Loose-fill asbestos insulation**

Council is not aware of any residential premises on the land (within the meaning of Division 1A of Part 8 of the *Home Building Act 1986*) that are listed on the register that is maintained under Division 1A of Part 8 of the *Home Building Act 1986*. 
Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.

- DCP Transportable Homes
- DCP Water Supply to Buildings

Certificate No: 263/2016
2  Zoning and land use under relevant LEPs

For each environmental planning instrument or proposed instrument referred to in clause 1 (other than a SEPP or proposed SEPP) that includes the land in any zone (however described):

(a) the identity of the zone, whether by reference to a name (such as “Residential Zone” or “Heritage Area”) or by reference to a number (such as “Zone R1”),

RU1 Primary Production

(b) the purposes for which the instrument provides that development may be carried out within the zone without the need for development consent,

Building identification signs; Environmental protection works; Extensive agriculture; Farm buildings; Forestry; Home occupations; Intensive plant agriculture; Roads

(c) the purposes for which the instrument provides that development may not be carried out within the zone except with development consent,

Air transport facilities; Airstrips; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Boat launching ramps; Boat sheds; Business identification signs; Cellar door premises; Cemeteries; Community facilities; Dual occupancies; Dwelling houses; Environmental facilities; Extractive industries; Farm stay accommodation; Flood mitigation works; Helipads; Home businesses; Home industries; Information and education facilities; Intensive livestock agriculture; Open cut mining; Recreation areas; Recreation facilities (major); Recreation facilities (outdoor); Research stations; Roadside stalls; Rural industries; Rural workers’ dwellings; Turf farming; Water recreation structures; Water supply systems

(d) the purposes for which the instrument provides that development is prohibited within the zone,

Any development not specified in item 2 or 3

(e) whether any development standards applying to the land fix minimum land dimensions for the erection of a dwelling-house on the land and, if so, the minimum land dimensions so fixed,

100 ha
Note: There are other provisions within the LEP where a dwelling may be permissible subject to consent on smaller allotments.

(f) whether the land includes or comprises critical habitat,

The land does not include or comprise a critical habitat.

(g) whether the land is in a conservation area (however described),

The land is not within a conservation area.

(h) whether an item of environmental heritage (however described) is situated on the land.

There isn't an item of environmental heritage situated on the land.

2A Zoning and land use under State Environmental Planning Policy (Sydney Growth Centres) 2006

Not applicable.

3 Complying Development

Whether or not the land is land on which complying development may be carried out under each of the codes for complying development because of the provisions of clauses 1.17A (c) and (d) and 1.19 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.

Yes

If yes complying development may be carried out under the following Codes:

- General Housing Code
- Rural Housing Code
- Housing Alterations Code
- General Development Code
- Commercial and Industrial Alterations Code
- Commercial and Industrial (New Buildings and Additions) Code
- Subdivision Code
- Demolition Code
- Fire Safety Code

Note: The opportunity for complying development to be carried out under each of these Codes may be restricted where the land is a flood control lot, within a bushfire prone area or subject to other site or zoning constraints. For more information about complying development visit the Electronic Housing Code website at www.ehc.nsw.gov.au
If no complying development may not be carried out on the land because of the provisions of clauses 1.17A (c) and (d) and 1.19 of the SEPP, the reasons why it may not be carried out under that clause are:

- Not Applicable

4 Coastal protection

Whether or not the land is affected by the operation of section 38 or 39 of the Coastal Protection Act 1979, but only to the extent that the council has been so notified by the Department of Services, Technology and Administration.

Not applicable.

4A Certain information relating to beaches and coasts

Not applicable.

4B Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable.

5 Mine subsidence

Whether or not the land is proclaimed to be a mine subsidence district within the meaning of section 15 of the Mine Subsidence Compensation Act 1961.

The land isn’t proclaimed to be in a mine subsidence district within the meaning of section 15 of the Mine Subsidence Compensation Act 1961.

6 Road widening and road realignment

The land isn’t affected by any road widening or road realignment under:

(a) Division 2 of Part 3 of the Roads Act 1993, or
(b) any environmental planning instrument, or
(c) any resolution of the council.

7 Council and other public authority policies on hazard risk restrictions

The land isn’t affected by a policy:

(a) adopted by the council, or
(b) adopted by any other public authority and notified to the council for the express purpose of its adoption by that authority being referred to in planning certificates issued by the council,
that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A  Flood related development controls information

Whether or not development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.

No

Whether or not development on that land or part of the land for any other purpose is subject to flood related development controls.

No

Note: Words and expressions in this clause have the same meanings as in the instrument set out in the Schedule to the Standard Instrument (Local Environmental Plans) Order 2006.

8  Land reserved for acquisition

Whether or not any environmental planning instrument or proposed environmental planning instrument referred to in clause 1 makes provision in relation to the acquisition of the land by a public authority, as referred to in section 27 of the Act.

Nil

9  Contributions plans

The name of each contributions plan applying to the land.

- Narrabri Section 94 Contributions Plan
- Narrabri Section 94A Development Contributions Plan

Note: Both contribution plans apply to the zone, but the imposition of each Plan is dependent upon the type of development proposed.

Note: There are also Developer Servicing Plans that may be applicable for water and sewer contributions which may apply to the land.

9A  Biodiversity certified land

If the land is biodiversity certified land (within the meaning of Part 7AA of the Threatened Species Conservation Act 1995), a statement to that effect.

Council has no records that the land is biodiversity certified land.
10    Biobanking agreements

If the land is land to which a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995 relates, a statement to that effect (but only if the council has been notified of the existence of the agreement by the Director-General of the Department of Environment, Climate Change and Water).

Council has not been notified of the existence of the agreement by the Director-General of the Department of Environment, Climate Change and Water.

11    Bush fire prone land

None of the subject land is identified as being bushfire prone land.

12    Property vegetation plans

If the land is land to which a property vegetation plan under the Native Vegetation Act 2003 applies, a statement to that effect (but only if the council has been notified of the existence of the plan by the person or body that approved the plan under that Act).

There isn’t a property vegetation plan under the Native Vegetation Act 2002 applicable to the land.

Note: This advice is based on information provided by the relevant Catchment Management Authority.

13    Orders under Trees (Disputes Between Neighbours) Act 2006

Whether an order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

An order has not been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land

Note: This advice is based on information provided to the Council.

14    Directions under Part 3A

There has been no directions by the Minister in force under section 75P (2) (c1) of the Act that a provision of an environmental planning instrument prohibiting or restricting the carrying out of a project or a stage of a project on the land under Part 4 of the Act does not have effect.

15    Site compatibility certificates and conditions for seniors housing
There is no current site compatibility certificate (of which the council is aware), issued under clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land

There has been no development consent granted by Council for Housing for Seniors or People with a Disability on the land.

16 Site compatibility certificates for infrastructure

There is no valid site compatibility certificate (of which the council is aware), issued under clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17 Site compatibility certificates and conditions for affordable rental housing

There is no current site compatibility certificate (affordable rental housing) of which the council is aware, in respect of proposed development on the land.

There has been no development consent granted by Council for affordable rental housing on the land.

18 Paper subdivision information

The name of any development plan adopted by a relevant authority that applies to the land or that is proposed to be subject to a consent ballot - Not Applicable

The date of any subdivision order that applies to the land - Not Applicable

Words and expressions used in this clause have the same meaning as they have in Part 16C of this Regulation.

Contaminated Land Management Act 1997

Note. The following matters are prescribed by section 59 (2) of the Contaminated Land Management Act 1997 as additional matters to be specified in a planning certificate:

(a) that the land to which the certificate relates is significantly contaminated land within the meaning of that Act—if the land (or part of the land) is significantly contaminated land at the date when the certificate is issued,

Council has no record that the land is significantly contaminated land at the date or the issue of this certificate.

(b) that the land to which the certificate relates is subject to a management order within the meaning of that Act—if it is subject to such an order at the date when the certificate is issued,
Council has no record that the land is subject to a management order within the meaning of that Act at the date of the issue of this certificate.

(c) that the land to which the certificate relates is the subject of an approved voluntary management proposal within the meaning of that Act—if it is the subject of such an approved proposal at the date when the certificate is issued,

Council has no record that the land is the subject of an approved voluntary management proposal within the meaning of that Act at the date of the issue of this certificate.

(d) that the land to which the certificate relates is subject to an ongoing maintenance order within the meaning of that Act—if it is subject to such an order at the date when the certificate is issued,

Council has no record that the land is the subject of an ongoing maintenance order within the meaning of that Act at the date of the issue of this certificate.

(e) that the land to which the certificate relates is the subject of a site audit statement within the meaning of that Act—if a copy of such a statement has been provided at any time to the local authority issuing the certificate.

Council has no record that the land is the subject of a site audit statement within the meaning of that Act at the date of the issue of this certificate.

**Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009**

*Note.* Section 26 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act.

Council is not aware of any exemption under section 23 or authorisation under section 24 of the Act.

**Section 149(5) Additional Information**

The following information is provided in accordance with Section 149(5) of the *Environmental Planning and Assessment Act 1979*:

**Tree Preservation Order**

Is the land affected by a Tree Preservation Order? No

**Development Consents**

Has any Development Consent being granted with respect to the land within previous two (2) years? No
**Note:** Council shall not incur any liability in respect of any advice provided in good faith pursuant to subsection (5)

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding). However, the land is identified as being ‘bushfire prone land’. Refer to Section 11.

7A. **Flood related development controls information**

Council is unable to confirm whether or not:

(1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.

(2) Development on that land or part of the land for any other purpose is subject to flood related development controls.

Words and expressions in this clause have the same meanings as in the instrument set out in the Schedule to the Standard Instrument (Local Environmental Plans) Order 2006.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

_Gunnedah Shire Council Section 94A Contributions Plan, 2013_

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.
10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.

11. **Bush fire prone land**

The land is identified as being partly affected “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Any proposed development on the subject land must take into consideration the policy titled “Planning for Bushfire Protection 2006”, produced by the NSW Rural Fire Service.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.
18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.

19. **Site verification certificates**

   Council is not aware of any current verification certificate that applies to this land.

**Note.** Council has not been advised of any matters prescribed by section 59 (2) of the *Contaminated Land Management Act 1997*.

**Note.** Section 26 of the *Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009* provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the *National Building and Jobs Plan (State Infrastructure Delivery) Act 2009*. 
18. Development Consent issued by Council within the previous five years

The following development applications pertaining to the land, have been determined by Council within the last five (5) years:

Development Consent - 2015/064 - September 2015 - Igloo Roof Area
Modification of Consent - 493924.003 - August 2015 Modification to Hours of Operation
Development Consent - 599701 - April 2012 - Temporary Portable Structure

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER
Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A  Erection of a dwelling house in rural and environmental zones [local]

(1)  The objectives of this clause are as follows:
(a)  to minimise unplanned rural residential development and
(b)  to enable the replacement of lawfully erected dwelling houses in
      rural and environmental zones.

(2)  This clause applies to land in the following zones:
      Zone RU1 Primary Production
      Zone RU3 Forestry
      Zone RU4 Rural Small Holdings
      Zone RU6 Transition
      Zone E3 Environmental Management

(3)  Development consent must not be granted for the erection of a dwelling
      house on a lot in a zone to which this clause applies, and on which no
      dwelling house has been erected, unless the lot is:
(a)  a lot created in accordance with clause 4.1, or
(b)  a lot that was created before the commencement of this Plan, in
     accordance with the Gunnedah Local Environmental Plan 1998, or
(c)  lot that is at least the minimum lot size shown on the Lot Size
     Map in relation to that land, or
(d)  a lot identified as “Dwelling opportunity” on the Dwelling
     Opportunity Map.

(4)  Despite subclause (3)(d), development consent may only be granted for
      the erection of a dwelling if an application for development consent
      referred to in subclause (3)(d) is made in relation to that land before the
      second anniversary of the commencement of this Plan.

(5)  Subclause (2) does not prevent consent from being granted for a
      dwelling house on land described in that subclause that has been affected
      only by the following:
(a)  a minor realignment of its boundaries that did not create an
     additional allotment, or
(b)  a consolidation of allotments, but not so as to reduce the area of the
     land on which the dwelling house will be erected, or
(c)  a subdivision creating or widening a public road or public reserve
     or for another public purpose.

(6)  Despite any other provision of this clause, development consent may be
      granted for the erection of a dwelling house on land in a zone to which
      this clause applies if:
(a)  there is a lawfully erected dwelling house on the land and the
     dwelling house to be erected is intended only to replace the
     existing dwelling house and is not occupied until the lawfully
     erected dwelling house is demolished or its occupation has
     permanently ceased; or
(b)  the dwelling house will replace a lawfully erected dwelling house
     that was either:
     (i)  removed from the site; or
     (ii)  partially or completely destroyed, less than two years prior to
          the lodgement of a development application pursuant to this
          plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

   (a) RU1 Primary Production
       *Gunnedah Local Environmental Plan, 2012*

   (b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

   (e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

   (f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

   (g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

   (h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

   The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

   Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
   *
   * General Housing Code
   * Rural Housing Code
   * Housing Alteration Code
   * General Development Code
   * General Commercial and Industrial Code
   * Subdivision Code
   * Demolition Code

4. Coastal protection

   (b) to enable the replacement of lawfully erected dwelling houses in
       rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in
       accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size
       Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling
       Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an
       additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the
       land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve
       or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the
       dwelling house to be erected is intended only to replace the
       existing dwelling house and is not occupied until the lawfully
       erected dwelling house is demolished or its occupation has
       permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house
       that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to
           the lodgement of a development application pursuant to this
           plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affection of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production
  Gunnedah Local Environmental Plan, 2012

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with
development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.

4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.
5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

Council is unable to confirm whether or not:
(1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.
(2) Development on that land or part of the land for any other purpose is subject to flood related development controls.

Words and expressions in this clause have the same meanings as in the instrument set out in the Schedule to the Standard Instrument (Local Environmental Plans) Order 2006.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. Bush fire prone land

The land is not identified as "bushfire prone land" on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. Property vegetation plans

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. Orders under Trees (Disputes Between Neighbours) Act 2006

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(c)(i) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER

Per:
Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
       (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
       (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
   (a) the clearing of native vegetation:
       (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
       (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
   (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
   (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
   (d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
   (e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

   *Gunnedah Local Environmental Plan, 2012*

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(c) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.
19. **Site verification certificates**

Council is not aware of any current verification certificate that applies to this land.

**Note.** Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

**Note.** Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
ADDITIONAL INFORMATION PROVIDED UNDER SECTION 149(5) OF THE ENVIRONMENTAL PLANNING & ASSESSMENT ACT 1979

18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affection of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
(d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
(e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

   The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

   Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increase in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the Floodplain Development Manual (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

flood planning level means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:

(a) the clearing of native vegetation:

    (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or

    (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or

(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or

(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or

(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or

(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production

_Gunnedah Local Environmental Plan, 2012_

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

_Gunnedah Shire Council Section 94A Contributions Plan, 2013_

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(c) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER
Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. **Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006**

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. **Complying development**

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. **Coastal protection**

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. **Certain information relating to beaches and coasts**

Not applicable to the subject land.
4B. **Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works**

Not applicable to the subject land.

5. **Mine subsidence**

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. **Land reserved for acquisition**

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

The following contributions plans apply to the land:

*Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

   The land is not identified as "bushfire prone land" on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

   Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

   No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

   The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

   Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

   Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

   Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

   a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

   b) There is no subdivision order that applies to the land.
19. **Site verification certificates**

Council is not aware of any current verification certificate that applies to this land.

*Note.* Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

*Note.* Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
ADDITIONAL INFORMATION PROVIDED UNDER SECTION 149(5) OF THE ENVIRONMENTAL PLANNING & ASSESSMENT ACT 1979

18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER

Per: [Signature]
1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
    Zone RU1 Primary Production
    Zone RU3 Forestry
    Zone RU4 Rural Small Holdings
    Zone RU6 Transition
    Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
   (a) the clearing of native vegetation:
       (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
       (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
   (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
   (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
   (d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
   (e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production
Gunnedah Local Environmental Plan, 2012

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with
development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.

4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.
5. **Mine subsidence**

   The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. **Road widening and road realignment**

   The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. **Council and other public authority policies on hazard risk restrictions**

   The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

   Council is unable to confirm whether or not:
   
   (1) Development on that land or part of the land for the purposes of dwelling houses, dual occupancies, multi dwelling housing or residential flat buildings (not including development for the purposes of group homes or seniors housing) is subject to flood related development controls.
   
   (2) Development on that land or part of the land for any other purpose is subject to flood related development controls.
   
   Words and expressions in this clause have the same meanings as in the instrument set out in the Schedule to the Standard Instrument (Local Environmental Plans) Order 2006.

8. **Land reserved for acquisition**

   The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

   The following contributions plans apply to the land:

   *Gunnedah Shire Council Section 94A Contributions Plan, 2013*

9A. **Biodiversity certified land**

   The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

   Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. **Bush fire prone land**

The land is not identified as "bushfire prone land" on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. **Directions under Part 3A**

The Minister has not issued a direction under Section 75P(2)(c)(i) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. **Site compatibility certificates and conditions for seniors housing**

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. **Site compatibility certificates for infrastructure**

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. **Site compatibility certificates and conditions for affordable rental housing**

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. **Paper subdivision information**

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
ADDITIONAL INFORMATION PROVIDED UNDER SECTION 149(5) OF THE ENVIRONMENTAL PLANNING & ASSESSMENT ACT 1979

18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
      (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
      (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
(d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
(e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

(a) RU1 Primary Production

Gunnedah Local Environmental Plan, 2012

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.
(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.

4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 of Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.
7. **Council and other public authority policies on hazard risk restrictions**

   The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. **Flood related development controls information**

   The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. **Land reserved for acquisition**

   The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. **Contributions plans**

   The following contributions plans apply to the land:

   "Gunnedah Shire Council Section 94A Contributions Plan, 2013"

9A. **Biodiversity certified land**

   The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. **Biobanking agreements**

    Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.

11. **Bush fire prone land**

    The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. **Property vegetation plans**

    Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. **Orders under Trees (Disputes Between Neighbours) Act 2006**

    No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).
14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 2012.

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.

19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

20. Loose-fill asbestos insulation

Council is not aware of any residential premises on the land (within the meaning of Division 1A of Part 8 of the Home Building Act 1986) that are listed on the register that is maintained under Division 1A of Part 8 of the Home Building Act 1986.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gunnedah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as "Dwelling opportunity" on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
       (i) removed from the site; or
       (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
   (a) a minor realignment of its boundaries that did not create an additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
   c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood aetfication of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.

2. Zoning and land use under relevant LEPs

(a) RU1 Primary Production

_Gunnedah Local Environmental Plan, 2012_

(b)-(d) The extract from the relevant local environmental plan is the development control table for the zone. It sets out the zone objectives and development which is allowed without development consent; development only allowed with development consent; and development which is prohibited; as it relates to the land the subject of this certificate.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.
(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:
* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.

4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.
6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 of Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.

11. Bush fire prone land

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. Property vegetation plans

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.
13. Orders under Trees (Disputes Between Neighbours) Act 2006

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 2012.

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.

19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

20. Loose-fill asbestos insulation

Council is not aware of any residential premises on the land (within the meaning of Division 1A of Part 8 of the Home Building Act 1986) that are listed on the register that is maintained under Division 1A of Part 8 of the Home Building Act 1986.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
   (a) to minimise unplanned rural residential development and
   (b) to enable the replacement of lawfully erected dwelling houses in
       rural and environmental zones.

(2) This clause applies to land in the following zones:
   Zone RU1 Primary Production
   Zone RU3 Forestry
   Zone RU4 Rural Small Holdings
   Zone RU6 Transition
   Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling
    house on a lot in a zone to which this clause applies, and on which no
    dwelling house has been erected, unless the lot is:
   (a) a lot created in accordance with clause 4.1, or
   (b) a lot that was created before the commencement of this Plan, in
       accordance with the Gunnedah Local Environmental Plan 1998, or
   (c) lot that is at least the minimum lot size shown on the Lot Size
       Map in relation to that land, or
   (d) a lot identified as “Dwelling opportunity” on the Dwelling
       Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for
    the erection of a dwelling if an application for development consent
    referred to in subclause (3)(d) is made in relation to that land before
    the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a
    dwelling house on land described in that subclause that has been affected
    only by the following:
   (a) a minor realignment of its boundaries that did not create an
       additional allotment, or
   (b) a consolidation of allotments, but not so as to reduce the area of
       the land on which the dwelling house will be erected, or
   (c) a subdivision creating or widening a public road or public reserve
       or for another public purpose.

(6) Despite any other provision of this clause, development consent may be
    granted for the erection of a dwelling house on land in a zone to which
    this clause applies if:
   (a) there is a lawfully erected dwelling house on the land and the
       dwelling house to be erected is intended only to replace the
       existing dwelling house and is not occupied until the lawfully
       erected dwelling house is demolished or its occupation has
       permanently ceased; or
   (b) the dwelling house will replace a lawfully erected dwelling house
       that was either:
      (i) removed from the site; or
      (ii) partially or completely destroyed, less than two years prior to
           the lodgement of a development application pursuant to this
           plan for the purpose of a dwelling house.

(e) The erection of a dwelling-house may be prohibited by a development standard relating to the minimum area of land. See the attached extract from the local environmental plan relating to this matter.

(f) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as including or comprising of critical habitat.

(g) The land is not identified in the Gunnedah Local Environmental Plan, 2012 as being located in a conservation area.

(h) The land does not contain an item of environmental heritage, as listed in Schedule 5 of the Gunnedah Local Environmental Plan, 2012.

2A. Zoning and land use under State Environmental Planning Policy (Sydney Region Growth Centres) 2006

The State Environmental Planning Policy (Sydney Region Growth Centres) 2006 is not applicable to the subject land.

3. Complying development

Yes. Complying Development may be carried out on the land under the following codes contained within the State Environmental Planning Policy (Exempt & Complying Development Codes) 2008:

* General Housing Code
* Rural Housing Code
* Housing Alteration Code
* General Development Code
* General Commercial and Industrial Code
* Subdivision Code
* Demolition Code

4. Coastal protection

The land is not affected by the operation of Section 38 or 39 of the Coastal Protection Act 1979.

4A. Certain information relating to beaches and coasts

Not applicable to the subject land.
4B. Annual charges under Local Government Act 1993 for coastal protection services that relate to existing coastal protection works

Not applicable to the subject land.

5. Mine subsidence

The land is not proclaimed to be a mine subsidence district within the meaning of Section 15 of the Mine Subsidence Compensation Act 1961.

6. Road widening and road realignment

The subject land is not affected by any road widening or realignment proposal under either Division 2 or Part 3 of the Roads Act 1993, any environmental planning instrument or any resolution of Council.

7. Council and other public authority policies on hazard risk restrictions

The land is not affected by a policy adopted by Council or by any other public authority and notified to the Council, that restricts the development of the land because of the likelihood of land slip, bushfire, tidal inundation, subsidence, acid sulphate soils or any other risk (other than flooding).

7A. Flood related development controls information

The land is subject to flood related development controls pursuant to the Gunnedah Local Environmental Plan 2012.

8. Land reserved for acquisition

The land is not subject to acquisition by a public authority under any environmental planning instrument, deemed environmental planning instrument or draft environmental planning instrument, as referred to in Section 27 of the Act.

9. Contributions plans

The following contributions plans apply to the land:

Gunnedah Shire Council Section 94A Contributions Plan, 2013

9A. Biodiversity certified land

The land is not biodiversity certified land within the meaning of Part 7AA of the Threatened Species Conservation Act 1995.

10. Biobanking agreements

Council has not been advised by the Director-General of the Department of Environment, Climate Change and Water, any of the existence of a biobanking agreement under Part 7A of the Threatened Species Conservation Act 1995.
11. Bush fire prone land

The land is not identified as “bushfire prone land” on the Bushfire Prone Land Map, certified by the NSW Rural Fire Service on 22nd September, 2003. Council has not, by resolution, adopted a policy to restrict development on the land in respect to bushfire for that reason.

12. Property vegetation plans

Council has not been advised that a Property Vegetation Plan under the Native Vegetation Act 2003 applies to the subject land.

13. Orders under Trees (Disputes Between Neighbours) Act 2006

No order has been made under the Trees (Disputes Between Neighbours) Act 2006 to carry out work in relation to a tree on the land (but only if the council has been notified of the order).

14. Directions under Part 3A

The Minister has not issued a direction under Section 75P(2)(cl) of the Act, in relation to a provision of the Gunnedah Local Environmental Plan, 1998 (as amended).

15. Site compatibility certificates and conditions for seniors housing

Council is not aware of any current site compatibility certificate that has been issued under Clause 25 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004 in respect of proposed development on the land.

16. Site compatibility certificates for infrastructure

Council is not aware of any valid site compatibility certificate being issued under Clause 19 of State Environmental Planning Policy (Infrastructure) 2007 in respect of proposed development on the land.

17. Site compatibility certificates and conditions for affordable rental housing

Council is not aware of any valid site compatibility certificate being issued under Clause 37 of State Environmental Planning Policy (Affordable Rental Housing) 2009 in respect of development on the land.

18. Paper subdivision information

a) There is no adopted development plan that applies to this land or that is proposed to be subject to a consent ballot.

b) There is no subdivision order that applies to the land.
19. Site verification certificates

Council is not aware of any current verification certificate that applies to this land.

Note. Council has not been advised of any matters prescribed by section 59 (2) of the Contaminated Land Management Act 1997.

Note. Section 26 of the Nation Building and Jobs Plan (State Infrastructure Delivery) Act 2009 provides that a planning certificate must include advice about any exemption under section 23 or authorisation under section 24 of that Act if the council is provided with a copy of the exemption or authorisation by the Co-ordinator General under that Act. Council has not been advised of any exemptions or authorisations under the National Building and Jobs Plan (State Infrastructure Delivery) Act 2009.
18. Development Consent issued by Council within the previous five years

There have been no development applications determined by Council pertaining to the land within the last five (5) years.

19. Tree Preservation Order

A Tree Preservation Order applies to the subject land. Refer to the attached.

Eric Groth
GENERAL MANAGER
Zone RU1  Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a range of ecologically sustainable agricultural and rural land uses and development on broad acre rural lands.
- To protect significant agricultural resources (soil, water and vegetation) in recognition of their value to Gumerah’s longer term economic sustainability.
- To conserve and enhance the quality of valuable environmental assets, including waterways, riparian land, wetlands and other surface and groundwater resources, remnant native vegetation and fauna movement corridors as part of all new development and land use.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Forestry; Home-based child care; Home businesses; Home occupations; Intensive plant agriculture; Moorings; Roads

3 Permitted with consent

Bed and breakfast accommodation; Cellar door premises; Dwelling houses; Dual occupancies (attached); Extractive industries; Farm buildings; Farm stay accommodation; Home industries; Intensive livestock agriculture; Open cut mining; Roadside stalls; Rural workers’ dwellings; Any other development not specified in item 2 or 4

4 Prohibited

Advertising structures; Amusement centres; Car parks; Caravan parks; Child care centres; Commercial premises; Community facilities; Crematoria; Depots; Educational establishments; Entertainment facilities; Exhibition homes; Exhibition villages; Freight transport facilities; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Mortuaries; Passenger transport facilities; Places of public worship; Public administration buildings; Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Service stations; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Wharf or boating facilities; Wholesale supplies
4.2A Erection of a dwelling house in rural and environmental zones [local]

(1) The objectives of this clause are as follows:
(a) to minimise unplanned rural residential development and
(b) to enable the replacement of lawfully erected dwelling houses in rural and environmental zones.

(2) This clause applies to land in the following zones:
Zone RU1 Primary Production
Zone RU3 Forestry
Zone RU4 Rural Small Holdings
Zone RU6 Transition
Zone E3 Environmental Management

(3) Development consent must not be granted for the erection of a dwelling house on a lot in a zone to which this clause applies, and on which no dwelling house has been erected, unless the lot is:
(a) a lot created in accordance with clause 4.1, or
(b) a lot that was created before the commencement of this Plan, in accordance with the Gunnedah Local Environmental Plan 1998, or
(c) lot that is at least the minimum lot size shown on the Lot Size Map in relation to that land, or
(d) a lot identified as “ Dwelling opportunity” on the Dwelling Opportunity Map.

(4) Despite subclause (3)(d), development consent may only be granted for the erection of a dwelling if an application for development consent referred to in subclause (3)(d) is made in relation to that land before the second anniversary of the commencement of this Plan.

(5) Subclause (2) does not prevent consent from being granted for a dwelling house on land described in that subclause that has been affected only by the following:
(a) a minor realignment of its boundaries that did not create an additional allotment, or
(b) a consolidation of allotments, but not so as to reduce the area of the land on which the dwelling house will be erected, or
(c) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) Despite any other provision of this clause, development consent may be granted for the erection of a dwelling house on land in a zone to which this clause applies if:
(a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house and is not occupied until the lawfully erected dwelling house is demolished or its occupation has permanently ceased; or
(b) the dwelling house will replace a lawfully erected dwelling house that was either:
   (i) removed from the site; or
   (ii) partially or completely destroyed, less than two years prior to the lodgement of a development application pursuant to this plan for the purpose of a dwelling house.
ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Certificate under Section 149

SCHEDULE

Flood Affected Land

You are advised that the part of Gunnedah in which this land is located can be affected by flooding. The incidence of flooding is as illustrated on the Flood Inundation Map, Namoi Valley Flood Inundation Plan Atlas, prepared on behalf of the Water Resources Commission of NSW.

If the incidence and degree of flooding is of any concern, examination of the abovementioned map is most essential.

Clause 6.1 Gunnedah Local Environmental Plan 2012 provides that:

6.1 Flood planning

(1) The objectives of this clause are as follows:
   (a) to minimise the flood risk to life and property associated with the use of land,
   (b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
   (c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to:
   (a) land identified as “Flood planning area” on the Flood Planning Map, and
   (b) other land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is compatible with the flood hazard of the land, and
   (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
   (c) incorporates appropriate measures to manage risk to life from flood, and
   (d) is not likely to significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.
(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

*flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard.
5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:
   (a) development consent, or
   (b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.

(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:
       (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
       (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
(a) the clearing of native vegetation:
   (i) that is authorised by a development consent or property vegetation plan under the *Native Vegetation Act 2003*, or
   (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the *Native Vegetation Act 2003*) that is authorised by a development consent under the provisions of the *Native Vegetation Conservation Act 1997* as continued in force by that clause, or
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the *Forestry Act 1916*, or
(d) action required or authorised to be done by or under the *Electricity Supply Act 1995*, the *Roads Act 1993* or the *Surveying and Spatial Information Act 2002*, or
(e) plants declared to be noxious weeds under the *Noxious Weeds Act 1993*.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) Subclause (8) (a) (ii) does not apply in relation to land in Zone R5 Large Lot Residential, E2 Environmental Conservation, E3 Environmental Management or E4 Environmental Living.

Note. When this Plan was made it did not include Zone E2 Environmental Conservation or Zone E4 Environmental Living.

#### Notes:

1. Land use settings are equivalent to those described in Table 1A(1) Footnote 1 and Schedule B7. HSLs for vapour intrusion for high density residential assume residential occupation of the ground floor. If communal car parks or commercial properties occupy the ground floor, HSL D should be used.
2. The key limitations of the HSLs should be referred to prior to application and are presented in Friebel and Nadebaum (2011b and 2011d).
3. Detailed assumptions in the derivation of the HSLs and information on how to apply the HSLs are presented in Friebel and Nadebaum (2011a and 2011b).
4. Soil HSLs for vapour inhalation incorporate an adjustment factor of 10 applied to the vapour phase partitioning to reflect the differences observed between theoretical estimates of soil vapour partitioning and field measurements. Refer Friebel & Nadebaum (2011a) for further information.
5. The soil saturation concentration (C<sub>sat</sub>) is defined as the soil concentration at which the porewater phase cannot dissolve any more of an individual chemical. The soil vapour that is in equilibrium with the porewater will be at its maximum. If the derived soil HSL exceeds C<sub>sat</sub>, a soil vapour source concentration for a petroleum mixture could not exceed a level that would result in the maximum allowable vapour risk for the given scenario. For these scenarios, no HSL is presented for these chemicals and the HSL is shown as ‘not limiting’ or ‘NL’.

Schedule B 1 - Guideline on Investigation Levels for Soil and Groundwater  
Federal Register of Legislative Instruments F2013C00298
(6) The HSLs for TPH C₆-Cₐ in sandy soil are based on a finite source that depletes in less than seven years, and therefore consideration has been given to use of sub-chronic toxicity values. The >C₈-C₁₀ aliphatic toxicity has been adjusted to represent sub-chronic exposure, resulting in higher HSLs than if based on chronic toxicity. For further information refer to Section 8.2 and Appendix J in Friebel and Nadebaum (2011a).

(7) The figures in the above table may be multiplied by a factor to account for biodegradation of vapour. A factor of 10 may apply for source depths from 2 m to <4 m or a factor of 100 for source depths of 4 m and deeper. To apply the attenuation factor for vapour degradation, a number of conditions must be satisfied. Firstly the maximum length of the shorter side of the concrete slab and surrounding pavement cannot exceed 15 m, as this would prevent oxygen penetrating to the centre of the slab. Secondly, measurement of oxygen in the subsurface is required to determine the potential for biodegradation. Oxygen must be confirmed to be present at >5% to use these factors.

(8) For soil texture classification undertaken in accord with AS 1726, the classifications of sand, silt and clay may be applied as coarse, fine with liquid limit <50% and fine with liquid limit >50% respectively, as the underlying properties to develop the HSLs may reasonably be selected to be similar. Where there is uncertainty, either a conservative approach may be adopted or laboratory analysis should be carried out.

(9) To obtain F1 subtract the sum of BTEX concentrations from the C₆-C₁₀ fraction.

(10) To obtain F2 subtract naphthalene from the >C₁₀-C₁₆ fraction.

Notes:
1. Urban residential/public open space is broadly equivalent to the HIL-A, HIL-B and HIL-C land use scenarios in Table 1A(1) Footnote 1 and as described in Schedule B7.
2. Aged values are applicable to arsenic contamination present in soil for at least two years. For fresh contamination refer to Schedule B5c.
3. Insufficient data was available to calculate aged values for DDT and naphthalene, consequently the values for fresh contamination should be used.
4. Insufficient data was available to calculate ACLs for As, DDT and naphthalene. The EIL should be taken directly from Table 1B(5).
