MOD 9 Statement - Curved Glass

Dear Jake,

Referring to JML Craft letter ref E3084-JML20-060068 dated 06 July 2020, points 11 and 12 in relation to changes in the radius of the curved glass panels.

While curved glass in concept can be procured in small radiuses, the combined requirements of size, shape, doubling, heat treatment, thermal and optical performance made it not possible to procure this particular glass from China and globally from manufacturers within the supply chain approached by the façade subcontractor.

We think the proposed alternative and changes described by the façade subcontractor is reasonable within the time frame of the project.

Should you require anything further please contact the undersigned.

Yours faithfully,

TAYLOR THOMSON WHITTING (NSW) PTY LTD
in its capacity as trustee for the
TAYLOR THOMSON WHITTING NSW TRUST

RAMI KHALIL
Associate Director
