Dear Andrew

Re: Inner Sydney High School (SSD 7610) - Development Consent Condition A16

In accordance with Condition A16 of the Development Consent (SSD 7610) for the Inner Sydney High School, within three months of:

- a) the submission of a compliance report under conditions of this consent;
- b) the submission of an incident report under conditions of this consent;
- c) the submission of an Independent Environmental Audit under conditions of this consent;
- d) the approval of any modification to the conditions of this consent; or
- e) the issue of a direction of the Secretary under condition A3,

The strategies, plans and programs required under this consent must be reviewed, and the Department must be notified in writing that a review is being carried out. This letter is notice that the strategies, plans and programs required under this consent have been reviewed and the table below summarises the outcome of the reviews.

Reason for Review:	To be issued within 3 months of Independent Environmental Audit Aug 20
B10 - A Soil Erosion and Sediment Control Plan	The latest Soil Erosion and Sediment Control Plan 10/12/18, is included within the CEMP dated 21/08/18, no changes required as the strategy is still relevant to the current stage of works.
B54 - Construction Environmental Management Plan (CEMP)	The CEMP was last updated on 21/08/19 for Stage 3 works (Crown Certificate 3) works to the project, no further updates were required this period as the plan is still relevant to the works being undertaken.
B55 - Construction Soil and Water Management Plan (CSWMP)	The CSWMP was last updated on 11/01/19 for the main construction phase of the project, no further updates were required this period as the plan is still relevant to the works being undertaken.
B56 - Construction Noise and Vibration Management Plan (CNVMP)	The CNVMP was last updated on 18/12/18 for Reuse of Heritage Buildings & new 13 storey building, no further updates were required this period as the plan is still relevant to the works being undertaken.

B57 - Construction Waste Management Plan (CWMP)	The CWMP was last updated on 11/01/19 for Main Works, no further updates were required this period as the plan is still relevant to the works being undertaken.
B58 - Construction Traffic and Pedestrian Management Plan (CTPMP)	The CTPMP was last updated on 07/07/20 for changes to traffic entering and exiting site due to lost access via the haul road. The updated CTPMP was issued under condition A17 on 6 th August 2020.
B10 - A Soil Erosion and Sediment Control Plan	The latest Soil Erosion and Sediment Control Plan 10/12/18, is included within the CEMP dated 21/08/18, no changes required as the strategy is still relevant to the current stage of works.
Notes:	Nil

We trust this meets your satisfaction, if you have any queries please let me know.

Kind Regards
