Dear Mr Yiend,

**Moorebank Precinct West Stage 2 (SSD 7709)  
Remediation Action Plan – Condition B166**

I refer to your email dated 22 December 2020 submitted in response to the Department's requests for further information.

I acknowledge the information in your email and note that based on your interpretation of condition B166, and supporting information provided to you from the EPA accredited Site Auditor, that an additional Remediation Action Plan (RAP), and therefore additional consultation with EPA NSW, would not be required.

I note that you have provided copies of the RAP and relevant supporting documentation to EPA NSW and the Department, for information.

If you wish to discuss the matter further, please contact Shiraz Ahmed at 9274 6534.

Yours sincerely
