**HDBP Lot 3 - Two Staged Speculative Warehouse/Industrial Facility -
Review of Vibration Impact to Upper Canal**

This letter confirms that an acoustic (vibration) review of the proposed HDBP Lot 3 - Two Staged Speculative Warehouse/Industrial Facility on the Upper Canal with the vicinity of the site has been undertaken.

Based on the proximity of the upper Canal which is located to the west of the site vibration generated from the site (including vibration from construction and operation activities) will not generate a magnitude which has the potential to generate any impact on the Upper Canal. Based on experience with similar facilities within proximity to infrastructure such as the Upper Canal the proposed HDBP Lot 3 - Two Staged Speculative Warehouse/Industrial Facility will have no negative impact on the infrastructure as a result of vibration from the site.

We trust this information is satisfactory. Please contact us should you have any further queries.

Yours faithfully,

A handwritten signature in blue ink that reads 'B.G. White.'.
