Mr Paul Solomon  
Planning and Infrastructure Manager  
Northern Region  
Fraser's Property Australia  
Level 2, 1C Homebush Bay Drive  
Rhodes NSW 2138

Dear Mr Solomon,

**SSD 7917 – Warehouse/Distribution and Light Industrial Facility – Lot 3 Horsley Drive Business Park**

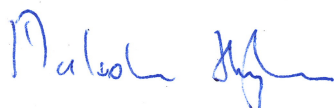

Thank you for meeting with WaterNSW on 2 February 2017 to inspect the issues requiring rectification works to be completed by Fraser's on WaterNSW land (the Upper Canal corridor).

WaterNSW acknowledges that the issues raised are applicable to the SSD 5169 works, and therefore agrees to close out these issues for SSD 7917. However, WaterNSW reiterates our requests for ongoing consultation regarding supplementary earthworks, civil works and changes to design discussed that may affect drainage (including a possible retaining wall) in proximity to the Upper Canal associated with SSD 7917.

We also look forward to receiving the proposed design solution for the drainage / scouring issue around Pit E1, and confirmation of rectification of the other issues discussed onsite. I can confirm that no access consent is required as the land is already open to the public. An extension to the consent to undertake works on our land is currently being investigated.

If you have any queries regarding the above please contact Alison Kniha, Catchment Protection Planning Manager on 4724 2451 or at [alison.kniha@watarnsw.com.au](mailto:alison.kniha@watarnsw.com.au).

Yours sincerely,

**MALCOLM HUGHES**  
**Manager Catchment Protection**
