Att: Bridget McNamara
Re: Application D/2017/1349 (SSD 8105), my objection to the development

Dear Ms McNamara,

I write to object to the proposed development of 201 Elizabeth St Sydney. After having viewed the model at Town Hall House and reviewed the application online for the following reasons:

1. The design of the building with its sheer bulk and height is totally out of character of its neighbours and surrounding buildings. It sticks out like a sore thumb
2. The loss of views to Hyde Park and the reduction of sunlight to my residence. Residents are being
affected by a new tower or Pitt additional tower or Balfour as without views to the rear of the bus stop or the loss of the building. Part of the city will make chaotic the loss of the hotel and the previous building. The absence of community consultation has been obscured by the developer. The progress of the project is blocked by your objections.
