BLACKTOWN NSW 2148

SSD 8375

Dear Mr Rush

**Request for Extension to Secretary's Environmental Assessment Requirements
Pick n Payless Metal Recovery and Recycling Facility, 57-69 Tattersall Road, Kings Park
(SSD 8375)**

I refer to your letter of 19 June 2019 seeking an extension to the Secretary's Environmental Assessment Requirements (SEARs) for the preparation of an Environmental Impact Statement (EIS) for the above State Significant Development (SSD) application.

The Department has reviewed your request and considers that the SEARs remain valid. As such, the SEARs will be extended for an additional three months. Please note that if you do not lodge an application under Section 4.12 (8) of the *Environmental Planning and Assessment Act 1979* by **October 2019**, you must consult with the Secretary in relation to any further requirements for lodgement.

It would be appreciated if you could contact the Department at least two weeks before you propose to submit the development application and EIS for your development. The Department can then:

- Confirm the applicable fee (see Division 1AA, Part 15 of the *Environmental Planning and Assessment Regulation 2000*); and
- Determine the number of copies (hard copy and electronic) of the EIS required for review.

Should you have any further enquiries, please contact Sheelagh Laguna on the contact details above.

Yours sincerely

Chris Ritchie
Director
Industry Assessments
as delegate of the Secretary

1/7/19.
