

DESIGN EXCELLENCE STATEMENT

Engineering & Technology Precinct (ETP) Redevelopment Project (Stage 1)

The Design Excellence Review Committee (DERC) have reviewed the Cox Architecture design presentation document 04, dated 25 November 2017 and attended the following presentation of same on 28 November 2017. The DERC are satisfied that Design Excellence has been achieved, and that the SSDA be lodged.

The DERC will be involved in the ongoing review during design development, with particular reference to the following items:

1. Consultation with the Metropolitan Land Council to ensure an endorsed indigenous narrative.
2. The further development and integration of the ground plane concept, vertically through the building.
3. Further design development of the landscape concept to develop more occupiable edge conditions and integration with surrounds.
4. Further refinement of the approach to the internal mesh screening.
5. Further refinement to the resolution of the curtain wall façade and external screening.

The design has also been endorsed by the University's Project Control Group, Project User Groups and Project Working Groups.
