Dear Mr Brogan,

**SAC Masterplan Project, Milsons Point
Preliminary Construction Traffic & Pedestrian Management Plan
Response to Submissions**

As requested, we have reviewed the items arising from the submissions to the Application relating to the Preliminary Construction Traffic & Pedestrian Management Plan (PCTPMP).

We attach an updated version of the PCTPMP in response to those submissions.

Specifically, the updated PCTPMP includes the following changes:

1. Section 3.4 *Construction Schedule* of the PCMP addresses the staging, sequence and timing requirements for delivering the works and highlights the early completion of the external works adjoining neighbours to the eastern boundaries.
2. *Traffic Control Plan* and *Pedestrian and Cyclist Amenity* Sections of the Annexure 3 PCTPMP, highlights the mitigation measures that would minimise the impact of the construction works on pedestrian/cyclist movements including adequate safety and diversion measures, limited time delays and limited detour distances.

We trust the updates suitably address the submissions received but if you have any queries on the above then please do not hesitate in contacting me.

Yours sincerely,

Tracey Brunstrom & Hammond Pty Ltd
