3D VIEWS - HOSPITAL

DATE: JUNE 2018	DRAWN: 1213	PROJ ARCH: S.H07	SCALE: As indicated@A1 REVISION: A
--------------------	----------------	---------------------	---

This architectural rendering illustrates the proposed hospital building and its integration with the existing campus. The hospital is a multi-story structure with a modern design, featuring large glass windows and a prominent brick facade. It is situated adjacent to the existing Pallister building, which is a large, multi-story structure with a flat roof and a mix of brick and concrete. The rendering shows a central landscape area with a paved access road, greenery, and a small parking lot. The text "PALLISTER" is overlaid on the image, and the word "HOSPITAL" is written in large letters above the new building. Arrows point from the text to the respective buildings.

This architectural rendering illustrates the proposed hospital building and its integration with the existing campus. The hospital is a multi-story structure with a modern design, featuring large glass windows and a prominent brick facade. It is situated adjacent to the existing Pallister building, which is a large, multi-story structure with a flat roof and a mix of brick and concrete. The rendering shows a central landscape area with a paved access road, greenery, and a small parking lot. The text "PALLISTER" is overlaid on the image, and the word "HOSPITAL" is written in large, bold letters above the new building. Arrows point from the text to the respective buildings. The scene is set against a clear blue sky with some clouds.
