- Signage uses wood look.
- \*) Certain elements of the sign can be 3D like the building name.
- \*\*) Side elevation of signs reveal there are protruding elements.

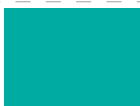

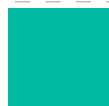

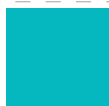

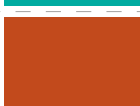

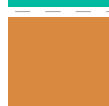

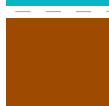

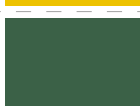

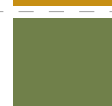

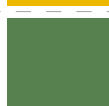

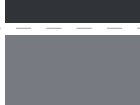

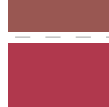

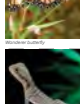

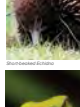

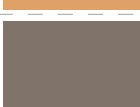

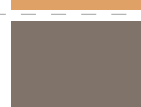

The density of environmental graphics may alter between different stages of the journey.  
Graphics will be coordinated with interior design and interior colour palette.

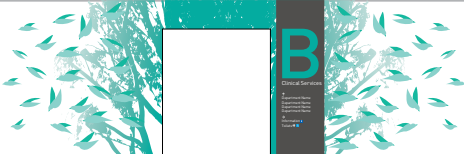

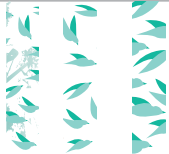

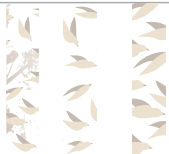

PRINCIPLES FOR COLOUR CODING/PALETTE, FLORA & FAUNA 27  
CUMBERLAND PLAIN WOODLAND

Each level features a reference colour palette and floral/fauna motifs to generate compositions for environmental graphics. Floral base motif is consistent per level, with a fauna layered motif unique to each lift.

FLORA (BASE MOTIF FOR WF GRAPHICS)				BUILDING CS01 - WEST				BUILDING CS01 - EAST (MENTAL HEALTH)				BUILDING A CS02 - LIFT											
				DESTINATIONS	LEVEL COLOUR THEME			FAUNA* (LAYERED MOTIF FOR WF GRAPHICS)					DESTINATIONS	LEVEL COLOUR THEME			FAUNA* (LAYERED MOTIF FOR WF GRAPHICS)					COLOUR	FAUNA* (LAYERED MOTIF FOR WF GRAPHICS)

\*FURTHER SPECIES MAY FEATURE IN OTHER AREAS, SHOWN ARE FEATURE SPECIES FOR WAYFINDING GRAPHICS, SUBJECT TO FURTHER DEVELOPMENT

Shown is one theme in two colours to illustrate the effect of different colours per level.  
A combination of graphics, colour and signage are applied to aid wayfinding in key zones.

ARRIVAL/ENTRY ORIENTATION		CIRCULATION	CIRCULATION	CIRCULATION	ARRIVAL	ARRIVAL
information entry points		horizontal circulation walkway	vertical circulation lifts	vertical circulation stairs	reception/ department arrival	waiting area/ sub department
