Prepared by:	Larry Clark		
Date of issue:	9 December 2020		

As approved Alternate Acoustics Advisor for the Sydney Metro City & Southwest project, I have reviewed and provided comment on the Construction Noise and Vibration Management Plan (CNVMP) for the Martin Place Sydney Metro CSSI works, as required under A27 (g) (iv) of the project approval conditions.

I previously reviewed and endorsed revision 15 of this plan. This revision 16 has been updated to include the Bligh Street compound as per my comments. I approve the amendments and consider that the document is appropriate for submission to the Secretary for information.
