RE: Solar Study Validation of Imagery – Stage 1 Amending Development Application

We confirm that the imagery contained in the solar shadow analysis for the Stage 1 Amending DA titled Stage 1 Amending SSDA Shadow Analysis prepared by Grimshaw (dated August 2018) has been verified and validated separately based on the City of Sydney digital cadastre and model, and the three dimensional model provided by Grimshaw. The envelopes tested comply with the Hyde Park North and Martin Place Sun Access Planes of the *Sydney Local Environment Plan 2012*, and the Pitt Street Mall 'no overshadowing' requirements of the LEP, and we agree with the results contained in the study.

I trust that this information is sufficient, but please contact me on 99566003 should you have any further questions.

Yours sincerely,

Peter Noble
