**Subject:** FW: Residential Development (SSD 9403) - 1-2 Murray Rose Avenue Sydney Olympic Park

Dear Andy

I refer to the letter from DPE, received by the EPA on 26 April 2019, requesting comments on the Response to Submissions (Rts) report for the proposed residential development (SSD 9403) at 1-2 Murray Rose Ave Sydney Olympic Park.

The EPA provided comments on 12 December 2018 about environment issues that should be considered as part of the proposal and consent. The proponent has considered and responded to these issues in the RtS report. The EPA recommends that these responses be considered in the drafting of the consent for this matter.

As this proposal does not constitute a schedule activity under Schedule 1 of the *Protection of the Operations Environment Act 1997* (POEO Act), it will not require an Environment Protection Licence. As a consequence, the EPA does not need to have any further input into this assessment.

Regards

**Jacqueline Ingham**
