29st March 2019

Dear Sir,

301 & 305 KENT STREET AND 35-39 ERSKINE STREET, SYDNEY CAPITAL INVESTMENT VALUE (CIV) ESTIMATE QUANTITY SURVEYOR REPORT

In support of your State Significant Development Application for the above-mentioned project please find attached our report identifying the Capital Investment Value (CIV) for the development.

This estimate has been based on the documents listed in Section 2 - Schedule of Information Used, if required a full detailed list can be provided.

We confirm that we have prepared an estimate of the CIV for this development application and we advise you that the estimated cost at time of lodgment is \$116,776,000 (excluding GST) and provide the detail which supports this estimate in Appendix A.

We have prepared the estimated CIV based on the Planning Circular - PS 10-008 issued 10 May 2010 'New Definition of Capital Investment Value' prepared by NSW Government Department of Planning.

The above estimate is based on conceptual design information made available to us at this point and therefore we have made a number of assumptions in relation to the project requirements.

Should you require any further information or wish to discuss any aspects of the attached, please do not hesitate to contact us.

Yours faithfully WT PARTNERSHIP

MATHEW OSTAPENKO (MAIOS 5633)

Associate Director
