Dear Ms Ballango,

**Sydney Football Stadium Redevelopment (SSD 9835)  
Attended Quarterly Noise Monitoring Report, Condition C17**

I refer to the quarterly attended Noise Monitoring Report, October - December 2021, submitted to the Planning Secretary in accordance with condition C17 of the consent for the Sydney Football Stadium Redevelopment (SSD 9835).

I note that short term attended noise monitoring has been carried out at four (4) locations as per the Construction noise and vibration management plan. I also note due to the COVID-19 restrictions, attended monitoring could not be carried out at location 2 (Fox Studios), instead a representative location was chosen at the adjacent premises boundary.

The report indicates that the measured noise levels were attributed to high traffic noise on adjoining road network with no community noise complaints for the construction works.

Accordingly, I acknowledge receipt of the attended quarterly Noise Monitoring Report, Revision 1 dated 4 January 2022, for our information in accordance with condition C17 of SSD 9835.

If you have any questions, please contact Shiraz Ahmed on 9274 6534.

Yours sincerely
