

## **Crown Lands**

There is a Crown Public road located between Lot 108 & Lot 109 DP 753735 and Lot 78 DP 753735, that has an Enclosure Permit to the adjoining land holder.

Should the road be required for access to the proposal area, the road should either be closed and purchased by the proponent or transferred to Council. Consultation should also occur with the adjoining landholder if the enclosure permit is impacted.
