Subject: RE: Walla Walla Solar Farm (SSD-9874) - Request for Advice on EIS

Dear Mr Beckett,

Notification of Exhibition Walla Walla Solar Farm (SSD 9874)

Thank you for your submission of the Environmental Impact Statement (EIS) for the above development to Fire & Rescue NSW (FRNSW) for agency review and comment.

It is understood that the EIS has been prepared by Bridgette Poulton of NGH Consulting on behalf of Fotowatio Renewable Ventures (the Applicant) to address matters identified in the Secretary's Environmental Assessment Requirements (SEARs).

FRNSW reaffirm comments and recommendations previously submitted in preparation of the SEARs and maintain that these adequately address fire and life safety considerations for the proposed development.

It is requested that FRNSW be given the opportunity to review and provide comment on any proposed modification to the development that includes the installation of a Battery Energy Storage Systems (BESS).

If you have any queries regarding the above please contact the Fire Safety Infrastructure Liaison Unit, referencing FRNSW file number BFS19/3513. Please ensure that all correspondence in relation to this matter is submitted electronically to firesafety@fire.nsw.gov.au.

Regards,
Nathan
