Director, Project Environment, Sustainability and Planning
Metro West
Level 43, 680 George Street,
Sydney NSW 2000

12 November 2021

Dear Mr Hodgson

Sydney Speedway (SSI-10048)
Condition C13: Quarterly Environmental Monitoring Report

I refer to the Sydney International Speedway Q3 - Quarterly Environmental Monitoring Report, revision 3, dated 14 October 2021, which was submitted for information, in accordance with Condition C13 of SSI-10048.

I note that the Quarterly Environmental Monitoring Report:

- has been reviewed and approved by Sydney Metro and no issues have been raised, and
- concludes that dust levels from the site are compliant with the adopted background conditions and water quality monitoring data is comparable to baseline data collected prior to construction activities commencing on site.

You are reminded that if there is any inconsistency between the Quarterly Environmental Monitoring Report, revision 3, and the conditions of approval, then the requirements of the conditions will prevail.

If you wish to discuss the matter further, please contact Scott Cooper at scott.cooper@planning.nsw.gov.au.

Yours sincerely

Matthew Todd-Jones
Team Leader – Rail
Infrastructure Management
