Dear Sir/Madam

SUBMISSION RE WOOLGOOBA TO BARRINA UPGRADE

I am a local wildlife carer and I wish to express grave concerns re this upgrade particularly in the Glenugie to Iluka section.

The preferred route will have a devastating effect on local ecosystems. This route will destroy one of the most ecologically diverse intact ecosystems in N.S.W. There are many threatened species, including the Coastal Emu along this route.

I feel the Orange Route will have less damaging impact on the valley's ecosystems and the determining authority should adopt this route.

Yours faithfully

Joan O'Shea
