2016

SCHEDULE 1

Infrastructure Approval:

SSI 6307 granted by the Minister for Planning on 11 February 2016.

For the following:

Development for the purposes of the WestConnex M4 East project being a new multi-lane road link from Homebush Bay Drive at Homebush to Parramatta Road and Wattle Street (City West Link) at Haberfield.

Modification:

Modification of project boundary to include associated stormwater drainage works in Dobroyd Canal. (SSI 6307 MOD 2).

SCHEDULE 2

1. Delete conditions A2(b) and (c) and replace with the following:

- A2(b) *M4 East Environmental Impact Statement — Volumes 1A, 1B, 2A, 2B, 2C, 2D, 2E, 2F, 2G and 2H prepared by AECOM Australia Pty Ltd and GHD Pty Ltd, dated September 2015;*
A2(c) *M4 East Submissions Report — Volumes 1A, 1B and 2 (WestConnex, 2015); and*

2. Insert the following condition after A2(c):

- A2(d) *Modification Report, State Significant Infrastructure Approval (SSI_6307), Modification of existing SSI boundary to include the expanded construction footprint to facilitate two stormwater outlets into Iron Cove Creek (Roads and Maritime Services, 2016).*

3. Delete condition A3(b) and replace with the following:

- A3(b) any document listed in condition A2(a) to A2(d) inclusive, the most recent document will prevail to the extent of the inconsistency.

4. Delete condition B18(c) and replace with the following:

- B18(c) the identification of environmental management measures relating to surface waters and groundwater during construction and operation, including water treatment, erosion and sediment control and stormwater management measures consistent with Water Sensitive Urban Design measures, where relevant, and consistent with the measures detailed in the documents listed in conditions A2(b) to A2(d) inclusive;

5. Insert a new condition B26A:

- B26A All physical works on Dobroyd Canal must be undertaken in consultation with a suitably qualified and experienced heritage consultant and Sydney Water's Lead Heritage Advisor. The consultation process must include consultation on the final design and location of the works. All reasonable steps must be undertaken to ensure that the lateral extent and degree of impact to the canal fabric is minimised.

6. Delete condition E46(d) and replace with the following:

- E46(d) review the accuracy of predicted environmental outcomes discussed in the documents listed in conditions A2(b) to A2(d) inclusive;
