

## PSF OUT-OF-HOURS WORK PERMIT

(For works conducted under DPIE approval)

Permit No.	009	Application Date	21/12/2020
Revision No.	00	Revision Date	N/A
Summary of Update (details of revision)	0	Initial application to allow works outside standard construction hours	
Title of Works	Canterbury Road trenching and conduit installation		
Person Requesting OOHW	Colin O'Mahony		

1.0 - JUSTIFICATION	
Justification for OOHW	Road Occupancy Licence (ROL) prevents works from occurring within standard construction hours.
DPIE Condition under which works are permitted	<p><i>Include additional details if required</i></p> <p>The work is permitted under the following clause of DPIE Condition of Approval:</p> <p><b>E4 (c): Linear infrastructure – Works in classified road reserves and signalised intersections.</b></p> <p><b>E6 (c): works approved under an Out-of-Hours Work Protocol</b></p>

2.0 – DESCRIPTION OF THE WORKS		
<b>Details of Work</b> <input checked="" type="checkbox"/> Map attached at end of form (showing location / work extent / nearest sensitive	Location & Chainage	CH11,800 Hanks St to CH12,350 Arlington St, along Old Canterbury Rd.
	Description of works	Trenching, conduit installation and road restoration.
	Proposed dates + time (incl contingency)	Start: 25/01/2021 @ 20:00      Finish: 24/04/2021 @ 05:00 – up to 45 shifts in this period*  *This includes contingency and is worst-case based on night shift only. Assume 12m/shift over 550m. At the time of writing, discussions are ongoing with TMC regarding daytime and weekend ROLs. It is anticipated that a more favourable outcome can be achieved for the community which will result in less night shifts.

2.0 – DESCRIPTION OF THE WORKS								
receivers / landscape)	Proposed Timings	<i>Indicative shift pattern - up to six consecutive shifts per week during the proposed dates from 20:00 to 05:00. Full weekend shutdowns, Fri 20:00 to Mon 05:00 may also be utilized depending on TMC approval.</i>						
		Shift 1	Shift 2	Shift 3	Shift 4	Shift 5	Shift 6	Shift 7
		High impact noise. Saw cutting Concrete/asphalt breakout Excavation to carry out investigations. Road restorations (Plates if required)	High impact noise. Saw cutting Concrete/asphalt breakout Excavation Conduit install Road restorations (Plates if required)	Moderate impact noise. Excavation Conduit install TSB backfill Road restorations (Plates if required)	Moderate impact noise. Excavation Conduit install TSB backfill Road restorations (Plates if required)	High impact noise. Saw cutting Concrete/asphalt breakout Excavation Conduit install Road restorations (Plates if required)	High impact noise. Saw cutting Concrete/asphalt breakout Excavation Conduit install Road restorations (Plates if required)	<b>Respite</b>
<b>Details on any concurrent construction activities being undertaken OOWH adjacent / in close proximity to the proposed works?</b>		N/A						
<b>Names of Foremen supervising the work</b>		TBC						
<b>Subcontractor Details</b>		Garde Services Durkin Locators						

3.0 – SENSITIVE RECEIVERS				
<b>Distance to Nearest Sensitive Noise Receiver</b>	<b>Sensitive Receiver</b>	<b>Distance</b>	<b>Sensitive Receiver</b>	<b>Distance</b>
	<input type="checkbox"/> Place of Worship		<input type="checkbox"/> Educational Institution (inc. Child Care Centres)	
	<input type="checkbox"/> N+V Sensitive Business and critical working area (eg. theatre, health services)		<input checked="" type="checkbox"/> Nearest Residential Receiver	10m
	<input type="checkbox"/> Not applicable (no sensitive receivers impacted)			

3.0 – SENSITIVE RECEIVERS	
	<i>Where one of the above is checked, noise generating works must not be timetabled within sensitive periods, unless otherwise agreed with the affected receiver. This must be determined through ongoing consultation with the community in accordance with the Community Consultation Strategy.</i>
	Has the sensitive receiver been consulted on these works and proposed respite options? (refer to CoA E9). List outcomes of consultation below <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
	<b>Comments</b>
	Two rounds of community consultation have been conducted via notification distribution and doorknocking to inform this permit application. See attached. Further community notifications will be distributed 7 days ahead of works commencing. Individual briefings will be conducted for those requesting them or deemed highly sensitive by the Community Relations Manager. Project specific respite offers, for example movie tickets, may be offered to members of the community subjected to lengthy periods of noise or vibration. This will be determined on a case-by-case basis.

4.0 – PLANT & EQUIPMENT	
<b>Plant and equipment to be used:</b> List all plant and noise generating equipment to be used during the work activities (eg. hand tools, generators, crane etc)	13t Excavator & hammer 5t excavator Truck & dogs 8-wheeler bogie Concrete agitators Compaction equipment (Whackers, plate compactors) Smooth drum roller Light vehicles
<b>Are alternative, quieter / less vibration intensive equipment options feasible for the activity?</b>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<b>If yes, why are these not being used?</b>	

5.0 – TRAFFIC MANAGEMENT	
<b>Will the work require traffic control?</b>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<b>Describe the location and nature of proposed disruption to traffic.</b>	During trenching works, traffic will be maintained but diverted around the work site on Old Canterbury Road. Traffic on side streets will be maintained via diversion.
<b>List any ROLs for the works</b>	Not yet issued by TMC.

6.0 – LIGHTING	
<b>What lighting is to be provided for night work?</b>	Daymakers Balloon lights
<b>Will lighting be positioned minimise light spill to nearby</b>	<input checked="" type="checkbox"/> Yes

## 6.0 – LIGHTING

receivers?(Refer AS4282-1997 and AS/NZ 1158).

 No

## 7.0 – NOISE &amp; VIBRATION ASSESSMENT

**Reference:**  
NMC  
Noise Objective  
Noise Management Level (NML)  
Sleep Disturbance Level (night only)  
Predicted  $L_{max}/L_{A1}$

NCA:	05		
Type of OOHW:	Trenching and conduit installation		
NML:	45		
SDL:	65		
Predicted:	85		

**Acoustic Assessment to determine if works are above RBL +5dB(A) at closest receiver**

- Below NML
- <5dB(A) above NML – construction noise noticeable
- ◆ 5 to 15dB(A) above NML – construction noise clearly audible
- >15 to 25dB(A) above NML – construction noise moderately intrusive
- >25dB(A) above NML – construction noise highly intrusive

**What measures are being taken to reduce noise impacts**

- No added measures
- Restrictive tools (*list*) – no greater than 13tonne excavator. Reverse quackers on trucks.
- Balloon lights
- Noise attenuation curtains
- High noise impact respite
- Other (*list*) – Road plates to be secured to minimise noise due to passing traffic.

**Noise monitoring required?**

- Yes – Compliance monitoring to be carried out within the first two shifts
- No

Nominated Verification monitoring location:

Worksite	NCA	Nominated receiver
Old Canterbury Road	NCA5	341 Old Canterbury Road (perimeter)

**Are vibration impacts above Human Comfort levels expected?**

- Yes
- No

Refer to OOH CNVIS Table 5

If yes, state number of properties expected to be impacted?

**No. of properties:** Barely noticeable – 07  
Noticeable - 48

**Is vibration monitoring required?**

- Yes – Compliance monitoring to be carried out within the first two shifts.
- No

7.0 – NOISE & VIBRATION ASSESSMENT						
Refer to CNVMP/Monitoring Programme	Nominated Verification monitoring location:					
	<table border="1"> <thead> <tr> <th>Worksite</th> <th>NCA</th> <th>Nominated receiver</th> </tr> </thead> <tbody> <tr> <td>Sydenham Road</td> <td>NCA5</td> <td>341 Old Canterbury Road (perimeter)</td> </tr> </tbody> </table>	Worksite	NCA	Nominated receiver	Sydenham Road	NCA5
Worksite	NCA	Nominated receiver				
Sydenham Road	NCA5	341 Old Canterbury Road (perimeter)				
Community notification required?	<p>Yes. Community notifications will be undertaken as per the approved Community Communication Strategy (CCS), including;</p> <p>Consultation on preferred respite option</p> <p>Letters notifying of work activities to be delivered 7 days before.</p> <p>A door knock will be done for the sensitive receivers immediately adjacent to the works as per CNVMP. Individual briefings may be held where requested by the Community or where deemed appropriate by the Community Team Manager.</p>					
Evidence of consultation and results	<p><b><u>Consultation documentation submitted with this application.</u></b></p> <p><u>Summary of Results:</u></p> <p>136 receivers consulted on preferred respite via notification. 48 consulted via doorknock. 33 responses received.</p> <p>Of those expressing a preference, 53% favoured option 2, six consecutive nights per week, 40% favoured option 1, four consecutive nights and 7% favoured baseline OOH - no more than two consecutive nights per week.</p>					

8.0 – OOHW RISK LEVEL ASSESSMENT													
<p>Insert snip from Risk Level calculation sheet and attach worksheet separately</p> <p>Low Risk (1-6) Moderate (7-9) High (10-12)</p> <p>Low and Moderate risk work may be approved by the ESM.</p> <p>High risk work must be approved by the Planning Secretary.</p>	<table border="1"> <thead> <tr> <th>Overall Risk Assessment</th> <th>Sum of Risk Factor Scores</th> <th>Approval Path</th> </tr> </thead> <tbody> <tr> <td>Low 1 Risk Activity</td> <td>1 - 6</td> <td>Environment and Sustainability Manager</td> </tr> <tr> <td>Moderate 2 Risk Activity</td> <td>7 - 9</td> <td>Environment and Sustainability Manager</td> </tr> <tr> <td>High Risk Activity</td> <td>10 - 12</td> <td>Planning Secretary</td> </tr> </tbody> </table> <p style="text-align: center;"><b>Your total Risk score is:</b></p> <p style="text-align: center;"><b>12</b></p> <p>Risk level calculator worksheet attached with application.</p> <p><b><u>Work to be approved by Planning Secretary as per CoA E8(e).</u></b></p>	Overall Risk Assessment	Sum of Risk Factor Scores	Approval Path	Low 1 Risk Activity	1 - 6	Environment and Sustainability Manager	Moderate 2 Risk Activity	7 - 9	Environment and Sustainability Manager	High Risk Activity	10 - 12	Planning Secretary
	Overall Risk Assessment	Sum of Risk Factor Scores	Approval Path										
Low 1 Risk Activity	1 - 6	Environment and Sustainability Manager											
Moderate 2 Risk Activity	7 - 9	Environment and Sustainability Manager											
High Risk Activity	10 - 12	Planning Secretary											

<b>9.0 AUTHORISATION/SITE ACCEPTANCE</b>					
<b>9.1 Environment &amp; Sustainability Manager (Approval)</b>					
<p><b>Approval Authority for works with Low or Medium Risk level on OOHW Risk Table as per section 8.0</b></p> <p>I confirm these works have been appropriately assessed under the OOHW Protocol as per CoA E8 and E9.</p> <p>The specified mitigation and management measures shall be implemented including:</p> <ul style="list-style-type: none"> <li>No more than six consecutive shifts of OOHW per week</li> <li>Noise and vibration verification monitoring.</li> <li>Installation of noise barriers around high impact works.</li> <li>Respite 1hr for every 3hr of high impact noise.</li> <li>No high impact work after midnight where practicable.</li> <li>Selection of appropriate plant and equipment</li> <li>Individual community briefings ahead of works commencing, and during works, as required.</li> <li>Project specific respite offers may be made for residents impacted by lengthy periods of works. To be determined on a case-by-case basis.</li> </ul>					
<b>Name</b>	Tom Spillane	<b>Signature</b>		<b>Date</b>	22/12/2020
<b>9.2 Planning Secretary (Approval)</b>					
<b>REQUIRED</b>					
<b>Name</b>		<b>Signature</b>		<b>Date</b>	
<b>9.3 Construction Supervisor/Project Manager (Site Acceptance)</b>					
<p>I confirm the following:</p> <ul style="list-style-type: none"> <li>▪ OOH permit will be kept on site where work is occurring</li> <li>▪ Respite and mitigation measures will be implemented</li> <li>▪ Any changes to works which may affect this approval shall be communicated to the Environment and Community Manager</li> </ul>					
<b>Name</b>	David Coulter	<b>Signature</b>		<b>Date</b>	22/12/2020

<b>Overall Risk Assessment</b>	<b>Sum of Risk Factor Scores</b>	<b>Approval Path</b>
Low 1 Risk Activity	1 - 6	Environment and Sustainability Manager
Moderate 2 Risk Activity	7 - 9	Environment and Sustainability Manager
High Risk Activity	10 - 12	Planning Secretary

**Your total Risk score is:**

**12**

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY CONSULTATION

### Out-of-hours work at Old Canterbury Road, Dulwich Hill

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

At **Old Canterbury Road, Dulwich Hill** (intersections with Hanks Street and Arlington Street) we will need to work outside standard construction hours due to high daytime traffic volumes. These works will generate noise. The loudest activities will be saw cutting and hammering, followed by trenching, road restoration and tree trimming.

Out-of-hours work in this location is due to start from **mid-January 2021 and will require around 45 shifts**.

### Propose work hours

Depending on the approval from the relevant road authorities, this out-of-hours work will either take place over a weekend shutdown from 6.00pm Friday through 6.00am Monday or would be carried out between 7.00am to 7.00pm from Monday to Sunday. We will keep you updated on the final work hours at least seven days in advance.

### How will the work affect you?

- > **There will be around 45 shifts** of out-of-hours construction work in total.
- > Highly noise intensive work will be done for three hours at a time, followed by one hour of respite.
- > We aim to do high impact noise activities before midnight wherever possible.
- > High impact noise typically occurs at the start and end of shifts, as we open up road pavement and then repair it.
- > Access to properties will be maintained at all times, unless we make alternative arrangements with you in advance.

### Tell us your views

We would like your views on two different ways this work could be done:

- Option 1 - Four consecutive nights per week over 11-12 weeks, or
- Option 2 - Six consecutive nights per week over 7-8 weeks.

Please refer to the attached noise chart for typical noise levels from this type of work.

You are welcome to let the Powering Sydney's Future project team know which option you prefer by contacting us on **1800 955 588** or at [psf@transgrid.com.au](mailto:psf@transgrid.com.au) before **Monday, 14 December 2020**.

Please write **Canterbury Road** in the subject line of your email to identify the major road.

Noisy activities	Tools and equipment	Approximately 45 shifts over the period below			
		January	February	March	April
Saw cutting and hammering, trenching, road restoration and tree trimming	Powered saw, excavator hammer and bucket, hand operated compactor and small roller, chainsaws	✓	✓	✓	✓

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.

# Noise level comparisons

People's perceptions of noise is strongly influenced by their environment.

A noise level that is perceived as loud in one situation may appear quiet in another.

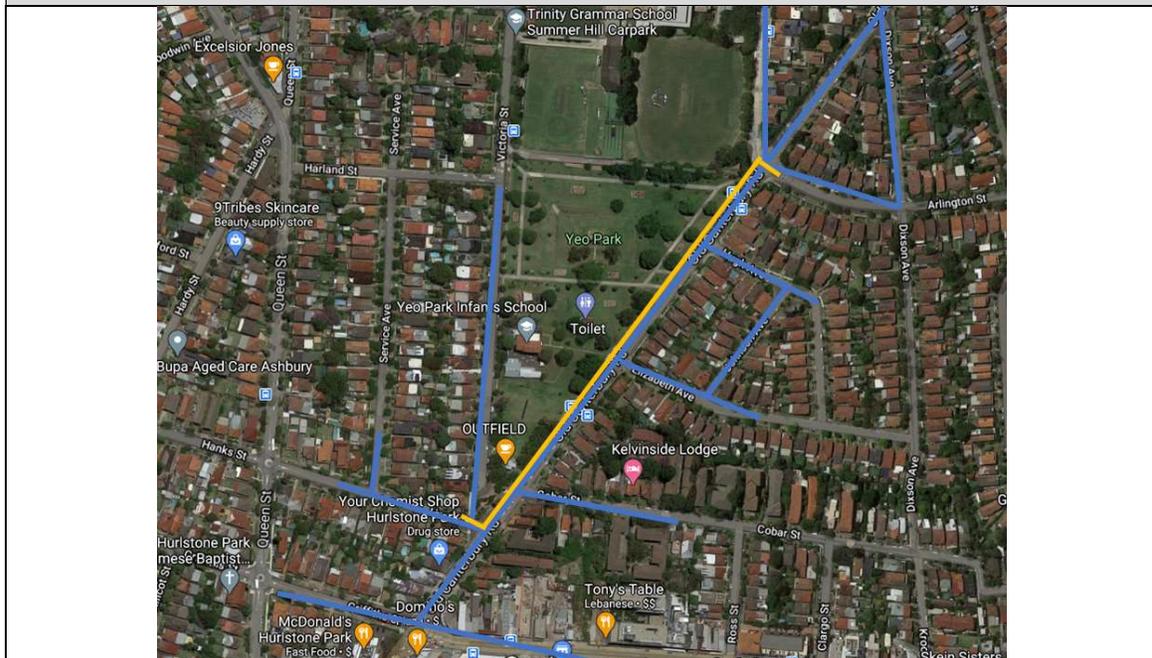

## dBa levels and subjective evaluation

## PSF-OOHW-009 Respite Consultation Report

Report	OOH Consultation for works at Old Canterbury Road	
<b>Objective:</b>	Obtain feedback about noise intensive works on Old Canterbury Road (intersections Arlington street and Hanks street) outside standard construction hours, 45 shifts.	
	ITEM	%
	Total of properties around 55DBA works	136
	Properties notified about the works and with OOH Consultation	136
	Properties with feedback after the notification	2
<b>Additional Activities.</b>		
	Properties contacted via doorknock to obtain the feedback around the 75 DBA or sensitive receivers.	48
	Total of properties with feedback after the doorknock	33
	Total of properties without feedback	15
<b>Results</b>		
	Total of feedbacks	33
	Option 1: The work will be done over four consecutive night shifts, with three respite nights. – This option means we may be working near your property for over 11-12 weeks.	12
	Option 2: The work will be done over 6 consecutive night shifts, with one respite night – This option may allow completion of the work in around 7-8 weeks.	16
	The resident has informed the project team that they do not have a preference regarding night work plans.	3
	The resident preferred baseline of three nights per week.	2

We expect around 45 shifts will be necessary. I note that Trinity Grammar's school year resumes on 28 January 2021.  Given the length of this out-of-hours work we are seeking community feedback on a couple of different ways it can be done. Please have Trinity Grammar complete and return the attached Community Consultation questionnaire. Similarly, please complete and return the attached Detailed Business Plan as we wish to reduce the potential impact of our works.  Returning both these forms to me directly will help expedite our recording of this information."
