## **RE Hills of Gold Wind Farm Application No SSD9679**

As a direct beneficiary of the Hills of Gold Wind Farm I am in support of the proposal due to:

1. Personal economic benefit – it will secure a retirement income for my wife and I
2. There is a Biodiversity stewardship opportunity that could see part of our land managed in a way to help biodiversity in Australia
3. It will give me the ability to manage the property in terms of water supply, bushfire risk and vegetation and fauna, including controlling pest species better
4. Having experienced bushfires of last season, the improvement to local roads and roadways on adjoining properties will be an advantage to firefighting and bushfire risk mitigation – Morrison's Gap road is a single access road to the area
5. I fully support renewable energy to combat Climate change and renewables are better than investing in coal as a source of energy globally.

With our property being one of the most with potential impact during construction and operation of the Wind Farm we are mostly satisfied with the agreement we have in place with the Proponents of the Hills of Gold Wind Farm Application No SSD9679

Sincerely

Russell Sydenham
