**Gunnedah Waste Facility – Application Number SSD-8530563
Lot 1 & 2 DP 1226992 16 Torrens Road Gunnedah**

I am writing in objection to the proposed development of the Gunnedah Waste Facility. My objections to this proposal include;

1. The facility will be located in close proximity to private, residential and rural holdings.
2. Significant health risks to the surrounding community associated with dust pollution, toxic air pollution and contamination of water sources.
3. The contamination of nearby travelling stock routes and reserves.
4. The contamination of the Namoi river system and ground water reserves.
5. Increased traffic and noise pollution.
6. No consultation with the Gunnedah community.

Kind Regards,
