Damage Done To Residential  
Home of Cynthia Neale  
By Continuous Blasting of Peak Gold  
Mine.

- \* I Object to this going any further because of the damage it has done and is doing to my house. Peak will take no responsibility.
- \* The proposal will have the stopes closer to my dwelling, so the damage will keep occurring

Carport : Cement all cracking + lifting  
: Roof all lifting

Verandahs: Front + Back All cracking  
Retaining wall falling apart  
Gutters : Twisting and leaking this  
in the end will do damage to

The strain on my health and  
financial is crippling

Government does not care about the small  
people only big business.

All they say it does not breach EPA  
standards

Shed floor cracking

fault line runs 20mtr from my  
house.
