**Re: Bowmans Creek Wind Farm Application Number SSD 10315**

I am attaching my submission to the above mentioned development application.

I hereby declare that I object to the Bowmans Creek Windfarm proposal ID no.SSD 10315

I have not made any reportable political donations in the previous 2 years.

Please refer to the below points to why I object to this project.

- Visual impact - 70 turbines at 220m high sitting on 300m high ridgelines and visible from up to 40 kms
- Noise impact – they are never silent even when there is no wind, they disturb sleep and the enjoyment of your property and they have other negative health impacts
- Property value – we have done the research and have the proof. Your property value will decline by a significant amount. That's if you can even sell...there are now numerous properties for sale around Nundle and the proposed Hills of Gold Wind Farm. They are not selling.
- TV and telecommunications interference
- Increased bushfire risk - fire from Capital Wind Farm burned 12 kms. Aircraft will not fly in the vicinity of wind turbines. We have one road in and one road out
- Traffic hazards - particularly during construction, proposed route New England Hwy
