

My submission is asking RMS and the Project Team to:

- Reinststate the GreenLink connecting communities and green open space from Rozelle to Bicentennial Park
- Relocate and design pedestrian and cyclist connections that are continuous, safe and direct.
- Design the modification infrastructure and active links in response to the character of the suburbs, the location of the foreshore and it's potential future development.
- Provide pedestrian and cyclist paths that maximise people safety and do not force them onto busier streets, unsafe concrete plazas and caged walkways.
- Integrate active and direct connections to all active transport – including the future Metro West and Foreshore Ferry Wharf

Furthermore I suggest:

How important it is to maintain the amenity to the foreshore. Residents walk to the Bicentennial Park. This mod 2 will lead to a pedestrian disaster.

Yours Sincerely,

Name: Jane Lander
