Martins Creek Quarry Project SSD_6612 – Letter of Support

Metromix support the Martins Creek Quarry Project. We have had an ongoing association with Martins Creek for over 20 years, as it has been one of the important quarries in the area to provide high quality construction materials to the industry.

We have also had an ongoing association for many years with Daracon. They are a significant Hunter Region employer, with more than 800 people working for them. Through employment and the supply of hard rock quarry materials, Martins Creek Quarry has long contributed to the economic growth of the Hunter Region and the State.

The Amended Development proposed by Daracon has the potential to alleviate concerns over the regions ability to meet future construction demands required to meet a growing population in the Hunter Region.

Yours Sincerely
